5TH GLOBAL SUMMIT ON

ADVANCES IN EARTH SCIENCE AND CLIMATE CHANGE

SEPTEMBER 24-25, 2026 / LONDON, UK

Theme: "Resilient Planet, Sustainable Future: Innovations in Earth Science and Climate Action"

ADV. ESCC 2026

SUB THEMES

- AI and Big Data in Earth and Climate Science
- Geoengineering: Technological Innovations for Climate Intervention
- Impact of Climate Change on Biodiversity and Ecosystems
- Sustainable Energy and Climate Solutions
- Water Resources and Climate Adaptation
- Smart Cities and Sustainable Urbanization for Climate Adaptation
- Remote Sensing and Satellite Technologies for Earth Observation
- Blockchain and Digital Technologies in Climate Finance and Carbon Trading
- Advancing Climate Science and Modeling
- Green Technologies and Sustainable Practices
- Policy, Governance, and Global Climate Action

WHY TO ATTEND?

What you take

Attending the Earth Science and Climate Change Conference provides a unique opportunity to engage with leading experts, explore emerging trends in both earth science and climate change research, and gain insights into innovative strategies for understanding and mitigating environmental challenges. Participation plays a crucial role in professional development by deepening scientific knowledge, enhancing analytical skills, and fostering opportunities for collaboration and impactful contributions to a sustainable future.

WHO SHOULD ATTEND?

Prof. Cherl-Ho Lee

Korea Food Security Research Institute, Korea University, Korea

Dear Colleagues,

I am delighted to welcome you to the [5th Global Summit on Advances in Earth Science and Climate Change \(Adv. ESCC 2026\)](#), taking place on [September 24-25, 2026](#), in London, UK.

From [September 29 to October 1, 2025](#), I had the opportunity to participate in the [4th Global Summit on Earth Science and Climate Change](#), which provided me with a new academic experience and insight into the potential for globalization.

Over the three-day event, hundreds of presenters shared new research findings and opinions across a wide range of issues through in-person presentations, virtual sessions, and poster presentations. I was truly amazed by the scale and depth of these presentations and greatly impressed by the competence and efficiency of the organizers in managing such a massive academic event.

In today's trend of scientific research becoming increasingly specialized and vastly expanded, it is becoming ever more difficult to fully understand the big picture and to make impactful contributions from one's individual position.

I believe the Global Summit on Earth Science and Climate Change serves as a valuable opportunity for researchers—who may otherwise become overly immersed in narrowly focused areas—to broaden their perspectives, gain a holistic understanding, and foster unexpected collaborations and networks beyond their own fields of study.

I hope that many researchers will also participate in the 5th Global Summit on Advances in Earth Science and Climate Change, to be held in London, UK, on September 24-25, 2026, where they can discover new research ideas, share progress in their respective fields, and gain meaningful opportunities for collaboration and networking.

I warmly invite my peers, colleagues, and fellow global scientists to join us at this prestigious gathering. Let us come together to advance scientific knowledge, promote sustainable solutions, and drive global cooperation in tackling the pressing challenges of our time.

Warm regards,

Professor Cherl-Ho Lee,

Korea Food Security Research Institute, Korea University, Korea

Prof, Dr. Jouni Kekäle

Chief Senior Specialist, University of Eastern Finland, Finland

Dear Esteemed Participants,

My recent studies have dealt with climate change mitigation and higher education institutions' roles in this. I am also broadly and generally interested in science related to the topic. With these expectations I participated in the 2025 summit in Berlin where I held an invited speech. I must say that I was very delighted by the experience. The atmosphere in the Berlin seminar was intellectual and inviting.

With great pleasure I welcome you to the **5th Global Summit on Advances in Earth Science and Climate Change**, to be held from **September 24-25 in London**.

I am a social scientist and found the discussions with scientists from other disciplinary fields very useful. The presentations were good and concise. Although I am not an expert in many topics or disciplinary areas presented, one can always learn something from the diverse works. The great advantage in a meeting like this is the multi- and transdisciplinary exchange of ideas. The seminar was organised professionally and very well. I made some good contacts which are leading to future cooperation.

All in all, I can highly recommend the conference as an international opportunity to exchange insights, research findings, developmental considerations and ideas across disciplines and business areas related to Earth Science and Climate Change.

Looking ahead, I would also like to warmly highlight the upcoming 5th International Conference on Earth Science and Climate Change, to be held in London, UK. This event will further extend the valuable conversations we've started here, offering another excellent opportunity for collaboration and knowledge-sharing in one of Europe's most vibrant scientific and cultural hubs.

Prof, Dr. Jouni Kekäle

Chief Senior Specialist, University of Eastern Finland, Finland

Dr. Qinxue Wang

National Institute for Environmental Studies (NIES), Japan

Dear Esteemed Colleagues,

It is my distinct pleasure to extend my warm greetings to all participants of the 5th Global Summit on Advances in Earth Science and Climate Change (Adv. ESCC 2026), to be held on September 24-25, 2026, in London, UK.

Although I cannot determine at this time whether I will be able to attend the conference, I remain deeply committed to promoting international collaboration and scientific dialogue that address the pressing challenges of climate change, environmental degradation, and sustainable development.

I sincerely hope that this summit will serve as a vibrant platform for sharing innovative ideas, fostering partnerships, and inspiring collective actions toward a more resilient and sustainable planet.

I wish the conference every success and all participants a fruitful and inspiring exchange.

Dr. Qinxue Wang

National Institute for Environmental Studies (NIES), Japan

Giovanna Lucia Piangiamore

INGV - Istituto Nazionale di Geofisica e Vulcanologia, Coordinator of
MUGED (Geophysical Museum of Duronia), Italy

Dear Esteemed Colleagues and Friends,

I'm truly delighted to welcome you to the **5th Global Summit on Advances in Earth Science and Climate Change**, taking place on **September 24-25, 2026**, in the lively and inspiring city of **London, UK**.

The central theme of this year's conference, "**Resilient Planet, Sustainable Future: Innovations in Earth Science and Climate Action**" reflects our shared commitment to advancing interdisciplinary knowledge and fostering impactful collaboration in response to one of the most pressing challenges of our time.

After attending the 2025 edition, I experienced the insightful exchanges and innovative contributions, the quality of the discussions, and the fresh ideas that emerged.

Adv. ESCC 2026 will continue to build on that momentum, offering a space where people from different fields and backgrounds can connect, share, and spark new thinking. The summit offers a vital forum for researchers, policy makers, practitioners, and emerging voices from around the world to engage in constructive dialogue, share cutting-edge research, and explore transformative solutions.

From keynotes and panel sessions to poster presentations and student forums, the program is designed to nurture cross-disciplinary learning and strengthen global networks, encouraging open dialogue, practical exchange, and real-world impact. Whether you're presenting research, proposing new policies, or just eager to learn and connect, there's something for everyone.

We're excited to bring together scientists, researchers, students, professionals and changemakers from around the world to explore how we can move forward — together — toward a more sustainable and equitable future, while introducing new perspectives on restorative and regenerative strategies.

As we come together to reimagine pathways toward a sustainable future, I warmly invite you to contribute your insights, showcase your work, and join us in shaping the next chapter in Earth science and climate leadership.

Looking forward to seeing you in London!

Warm wishes,

Giovanna Lucia Piangiamore, Ph.D., Research Scientist,
INGV - Istituto Nazionale di Geofisica e Vulcanologia,
Coordinator of MUGED (Geophysical Museum of Duronia), Italy

PRESENTATION FORUM

01

KEYNOTE FORUM / MINI-PLenary SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

02

03

STUDENT FORUM / POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

04

05

EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/ CORPORATE WORKSHOPS/MINI- SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

HIGHLIGHTS OF THE DAY SESSIONS

"Highlights of the Day Sessions" is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

06

07

MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

SPEAKR'S TESTIMONIALS

BARCELONA

SEPTEMBER 26-27

ADV. ESCC 2024

<https://advanced-earth-climate-change.peersalleyconferences.com/>

The qualities of talks at Adv. ESCC 2024 were wide-ranging, and in my experience engaging and well presented. The sheer number though made for a very intense day and with relatively little time to delve deeper and explore specific topics and general themes, which I would have appreciated.

Some of the topics were relatively new to me and I was grateful to see them so well-articulated.

Moreover, I was impressed by the diversity of topics and geographical range of speakers and yet all relevant to the theme of the conference.

JUDE CURRIVAN

WHOLEWORLD-VIEW, UK

I enjoyed the talks of Adv. ESCC 2024 very much.

I appreciate your kind invitation to the excellent conference.

KUN'ICHI MIYAZAWA

TOKYO UNIVERSITY OF SCIENCE, JAPAN

The Adv. ESCC 2024 provided numerous opportunities to observe and engage with outstanding scholars in their presentations at the conference. My professional growth and development were significantly enhanced by my participation in the conference. Peers Alley Media, Canada did an excellent job in finding scholars from across the globe.

DAVID M. WATRY

UNIVERSITY OF MALTA, MALTA

Thank you for the opportunity to attend the “3rd Global Summit on Advances in Earth Science and Climate Change.”

The talks were of high quality and offered valuable insights. The event contributed to my professional development, providing useful advice for my future research.

Peers Alley Media did an excellent job. I appreciate your efforts in organizing such a beneficial event and look forward to future opportunities.

PENGFEI LI

KYUSHU UNIVERSITY, JAPAN

Adv. ESCC 2024 was very successful. The conference organizer set up the venue in a hotel and provided us with the service of booking accommodation at the same hotel, which saved us a lot of time.

All the presenters have made careful preparations and tremendous efforts to presents their research work. I saw multiple studies in different fields of Earth and environmental science, which opened up my knowledge.

Thank you again for your invitation of Adv. ESCC 2024 in this summer. I will recommend the information of Adv. ESCC 2025 in Berlin to my colleagues.

QIA WANG

*INSTITUTE OF QUANTITATIVE AND TECHNOLOGICAL ECONOMICS
(IQTE), CHINESE ACADEMY OF SOCIAL SCIENCES, CHINA*

The Adv. ESCC 2024 conference was wonderful for me. I have learned a lot from other speakers. The speakers were expert in their area. And they were very friendly. I am very lucky for meeting them in conference.

Thank you.

YUNUS OZTURK

FETHIYE, TURKEY

I wanted to take a moment to express my sincere gratitude for the opportunity to participate in the Advanced Earth Science and Climate Change 2024 Conference (Adv. ESCC 2024). Although I could not attend the event in person and had to join virtually, I found the experience incredibly enriching.

The content presented throughout the sessions was highly insightful, and it was clear that a great deal of effort and expertise went into organizing the event. The diversity of topics, the quality of the discussions, and the shared knowledge from experts worldwide left me with a wealth of new perspectives and ideas I can apply to my research and academic endeavors.

Despite the virtual format, I felt fully engaged and connected to the global community of scholars. I greatly appreciated the seamless technology integration to facilitate meaningful interaction and dialogue.

I also want to express my enthusiasm for the upcoming 4th Global Summit on Advances in Earth Science and Climate Change in Berlin in 2025. It promises to be another outstanding event, and I look forward to being involved again, hopefully in person, this time.

Once again, thank you for the invaluable opportunity and the stellar organization of this year's conference. I eagerly anticipate contributing to and participating in future events.

BIH-CHUAN LIN

DA-YEH UNIVERSITY, TAIWAN

The quality of talks at Adv. ESCC 2024 was very good, and well-organized.

A very good job done, most of the presentations are well-selected and well-presented.

ROBERT M.X. WU

UNIVERSITY OF TECHNOLOGY SYDNEY, AUSTRALIA

Peers Alley Media, Canada did a good job.

Contributed with some possible connection to develop future research at Adv. ESCC 2024.

KATIA REGINA GARCIA PUNHAGUI

*UNILA - FEDERAL UNIVERSITY OF LATIN AMERICAN
INTEGRATION, BRAZIL*

The choice of topics and the quality of the Adv. ESCC 224 presentations were excellent.

The very diverse presentations from different countries (globally) provided me personally with a very high level of added value, both professionally and in terms of the overall picture. Getting to know each other and making personal contacts also played an important role. The virtual presentations on the second day, which were also varied and very interesting.

Overall, the conference was very well organized. Congratulations!!!

EDUARD HOCHBICHLER

*UNIVERSITY OF NATURAL RESOURCES AND LIFE SCIENCES,
AUSTRIA*

Thank you for the opportunity to participate in the Adv. ESCC 2024 conference online. Overall, I rate the conference very well; the wide range of topics was very interesting to me because I usually focus very strongly on my research topic. Connecting to the conference was easy; I could hear all the speakers well, and I had no problems with my presentations.

SYLWIA BUDZYŃSKA

POZNAŃ UNIVERSITY OF LIFE SCIENCES, POLAND

I appreciate your efforts in organizing this event (Adv. ESCC 2024) globally. All speakers were good, and their topics were fascinating. Attending this summit allowed me to learn more about climate change studies worldwide, which gave me several ideas and allowed me to undertake several studies in the future.

YEFOUNGNIGUI SOULEYMANE YEO

UNIVERSITY FÉLIX HOUPHOUËT-BOIGNY, CÔTE D'IVOIRE

Thank you again for your effort in organizing the “3rd Global Summit on Advances in Earth Science and Climate Change”.

The participants presented rich talks on different topics pertinent to Mother Planet and the way climate change affects the biodiversity.

I believe the talks enriched my knowledge on climate change as one of the environmental threats that should be seriously considered in all fields including arts and humanities.

Definitely, all the speakers did a great job in provoking thoughts on Earth and climate change!

I wish you all the best in your future conferences.

HUDA HALAWACHY

UNIVERSITY OF MOSUL, IRAQ

Dears, Adv. ESCC 2024 were excellent event.

Thanks a lot.

VLADIMIR TCHERNYI

MODERN SCIENCE INSTITUTE, SAIBR, RUSSIA

Quality of talks at Adv. ESCC 2024 was quiet Good.

NAVEEN GM

GOVERNMENT ENGINEERING COLLEGE, INDIA

Thanks for the opportunity to be a part of “3rd Global Summit on Advances in Earth Science and Climate Change”. The conference has been a great experience. I am extremely appreciative to you and your team for such a well-planned, well-executed and informative conference. I enjoyed the networking and every session I attended.

The level and diversity of discussion were amazing. The quality of talk was simple, easily communicable and full of scientific and socioeconomic information. It was splendid event both in terms of intellectual quality and social gratification.

It has contributed a lot to my professional development in respect of networking with peers, industry trends, global vision on recent advances, insights into new and sustainable practices and exposure to diverse perspectives.

Really, Peers Alley Media, Canada has done a commendable job in selection of speakers for thought-provoking sessions. The speakers were selected from diversified community with versatile work domain. In particular, the following speakers had a great influence and amazing take away relevant to field work:

- a. Pengfei LI from Kyushu University, Japan, on the topic, “Recovery of Zn and Cu from municipal solid waste incineration fly ash by integrating ammonium leaching and ammonia removal”
- b. Ralph-Uwe Dietrich from German Aerospace Center, on the topic, “Large-scale economic production of sustainable aviation fuels in Europe.

Moreover, I am highly impressed with the way the session was mediated by Jessica Argenta from University of Missouri.

So, in totality this was my first exploration of Barcelona, Spain and it was wonderful. Looking forward to be a part of this conference again in the upcoming year.

DURGESH NANDINI

DEFENSE R & D ORGANIZATION, INDIA

My experience at Adv. ESCC 2024 was profoundly enriching. The virtual format was impeccably executed, offering attendees a seamless experience. The caliber of the presentations was remarkable, with speakers demonstrating profound knowledge and engaging delivery. This experience has significantly contributed to my professional development, providing valuable insights into the latest trends and advancements in Climate Change.

Peers Alley Media, Canada, in particular, deserves commendation for curating thought-provoking sessions with speakers who offered unique perspectives and valuable insights. The meticulous selection of speakers played a pivotal role in the event's overall success. In conclusion, I wholeheartedly recommend Adv. ESCC 2024 to those seeking to remain informed about the latest developments in Climate Change issues. The conference offers a valuable opportunity for learning and professional growth.

SHAMAL SHAKIR TAHER

UNIVERSITY OF MOSUL, IRAQ

Indeed, after my participation, I can say that the quality of the experience at Adv. ESCC 2024 was really excellent. It gave me the opportunity to exchange my research work with specialists in the field. Peers Alley Media, Canada have done a good job selecting speakers for thought-provoking sessions for this event. I found that all the participants are well qualified in their specialties. I hope to further expand my research with collaborations with professionals and industrialists in my field. Thank you very much for all the enormous work done behind this 3rd Global Summit on Advances in Earth Science and Climate Change”

I'm delighted to participate really.

CHIRAZ ABDELMALAK BABBOU

UNIVERSITY OF TUNIS EL MANAR, TUNISIA

The conference provided an excellent networking opportunity and the platform to share my work effectively. All the speakers in Adv. ESCC 2024 were dynamic and impressively presented their work. I got some new ideas and current affairs which contributed to my professional development. Program Director was always gave prompt reply to all my queries and supported me during the conference. I congratulate Peers Alley Media for gathering such great and eminent speakers on one platform and making the event successful with two days of thought-provoking ideas.

SHEFALI ARORA

*UNIVERSITY OF PETROLEUM AND ENERGY STUDIES (UPES),
INDIA*

I participated in “3rd Global Summit on Advances in Earth Science and Climate Change” 2024. I was a distinguished speaker and presented my research at the conference. This conference was a wonderful experience with getting to know about contemporary research in a diverse field of studies. The speaker presented their research in an effective way and I personally enjoyed the presentations and learned a lot.

In addition, the presenters were selected on the basis of their research quality and impact factor which was a very positive aspect of the conference. Moreover, the event was a good opportunity for networking and forming future research collaboration. Such networking will help all the researchers and students to enhance their research skills and produce more rigorous research publications.

The organizing team of the conference did a wonderful job and sorted out individual queries in an efficient way. I personally had some issues regarding entry clearance and the team helped me in all this process in the best possible way.

So hats off to the organizing team and I look forward to participate in their conference in future as well.

Thank you very much

SYED TANVEER HUSSAIN SHAH

ABDUL WALI KHAN UNIVERSITY, PAKISTAN

The program at Adv. ESCC 2024 was great. Thank you for organizing such great events covering a broad spectrum of research and scientists.

The quality is good; it is up to the mark. It can provide an initial overview for different field. It was a thought-provoking session with speakers from various domains.

PANKAJINI MAHANTA

FAKIR MOHAN UNIVERSITY, INDIA

Firstly thanks to the organizer for giving us a chance to share our experience in the “3rd Global Summit on Advances in Earth Science and Climate Change”.

The quality of talks at Adv. ESCC 2024 was an excellent. It contributes limited but we shared the experience with the international community or experts.

Peers Alley Media, Canada did a good job.

SOUKHIN TARAFDAR

DISCOVERING

A right choice of conference destination
is an important aspect of any
international conference and keeping
that in consideration, ADV. ESCC
2026 is scheduled in the Beautiful city
'London'.

LONDON

London, the capital and largest city of the United Kingdom, is located in southeastern England along the River Thames. Founded by the Romans as Londinium around AD 47, it has developed over two millennia into one of the world's most powerful, influential, and dynamic global cities.

London holds the distinction of being among the world's most powerful, coveted, influential, visited, expensive, sustainable, investment-friendly, and popular-for-work cities. It exerts a remarkable influence across multiple domains including arts, commerce, education, entertainment, fashion, finance, healthcare, journalism, professional services, research and development, tourism, and transportation.

Economically, London ranks 26th among 300 major global cities in terms of performance and stands as one of the world's foremost financial centres, with the fifth- or sixth-largest metropolitan GDP. It is also the most visited city globally in terms of international arrivals, while its airport system—comprising Heathrow, Gatwick, Stansted, Luton, and London City airports—is the busiest in the world by passenger flow. London remains a magnet for global investors and hosts the highest number of international retail stores of any city.
