

2ND EURO-GLOBAL SUMMIT ON

ADVANCES IN CLINICAL AND CELLULAR IMMUNOLOGY

September 23-24, 2024 | Barcelona, Spain

Theme:

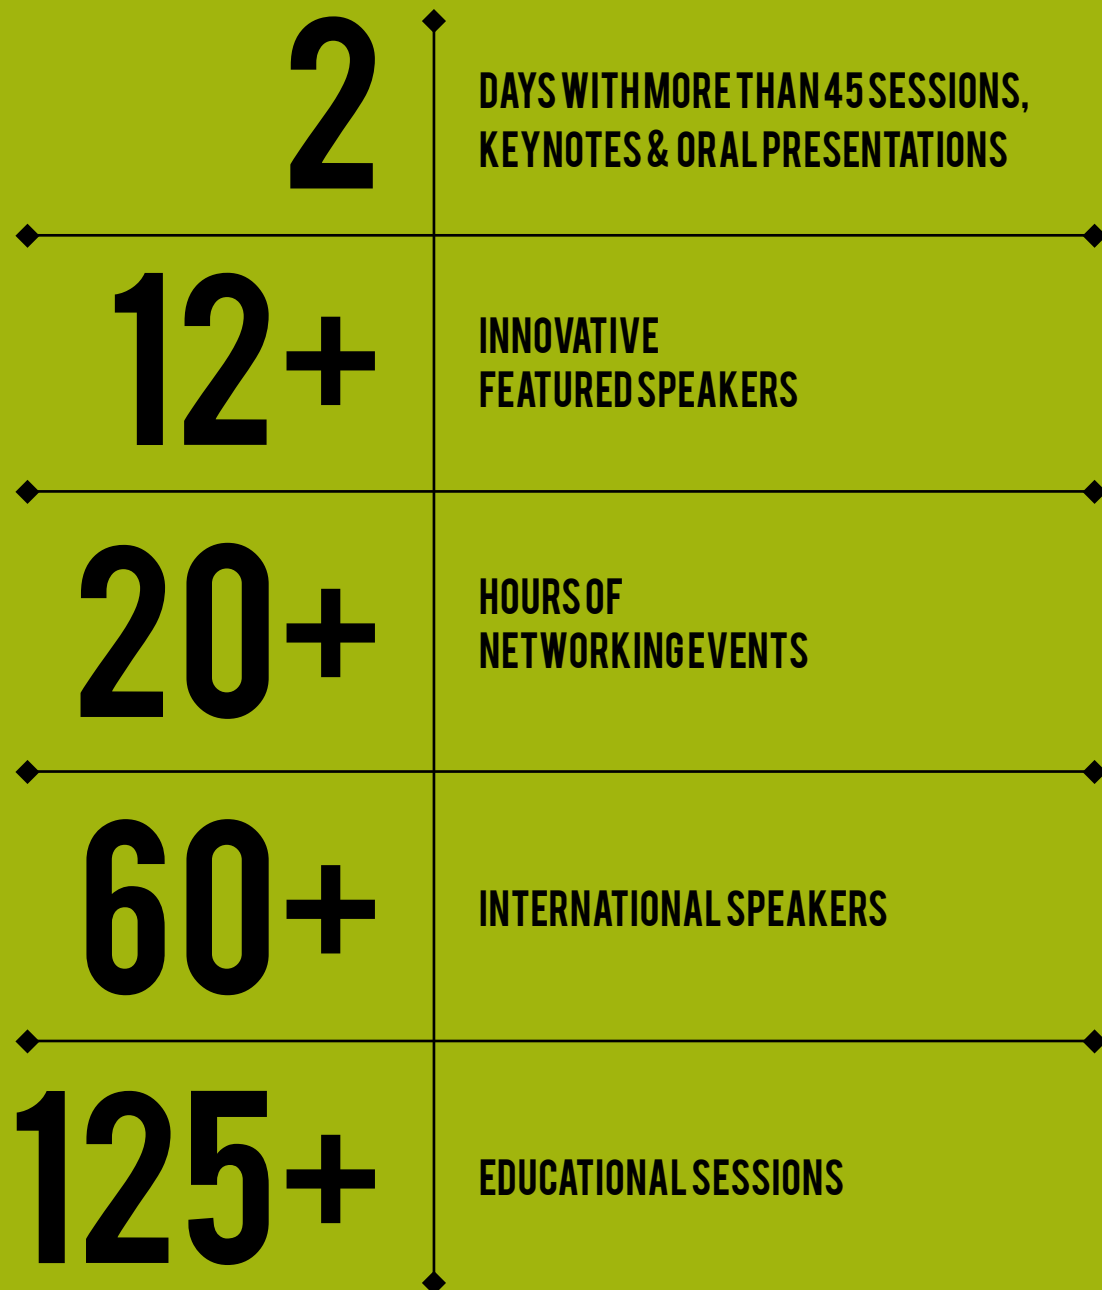

Immunology Beyond Boundaries: Pioneering Clinical Frontiers, Proactive Innovations, Digital Technologies, and Next-Gen Discoveries for Enhanced Patient Care and Healthcare Transformation.

Sub-themes:

- Cutting-Edge Advances in Immunotherapy
- Translational Immunology: From Bench to Bedside
- Emerging Technologies in Immunological Research
- Personalized Immunotherapy: Tailoring Treatments to Individuals
- Global Perspectives on Immunization and Public Health
- Autoimmunity and Immunological Disorders: Unraveling Mechanisms and Therapies
- Immunogenomics: Integrating Genomic Approaches in Immunology
- Immunological Surveillance and Cancer Immunity

ADV. IMMUNOLOGY 2024

<https://future-immunology.peersalleyconferences.com/>

WHO SHOULD ATTEND?

WELCOME MESSAGE

Huan Ren Ph D, Professor in Immunology,
Southern University of Science & Technology, China

Dear Colleagues and Friends

It is a great honor and privilege for us to invite you to the **2nd Euro-Global Summit on Advances in Clinical and Cellular Immunology**, which will be held on **September 23 and 24, 2024**, in beautiful and irresistible **Barcelona, Spain**. The central theme being “Advances in Immunology; Researching clinical advances, proactive innovations, new digital technologies, and cutting-edge discoveries that benefit patients and healthcare system”.

First, I'd like to thank each of the participants for attending the conference Adv. Immunology 2023, during which the experts from 16 countries of the world exchanged and discussed their research updates on clinical and basic Immunology, providing new insights into the immune system's mechanisms and potential new treatment modality for devastating disease such as cancer. Their expertise created a vibrant atmosphere inspiring new methods and directions of their future work in Immunology theory and practice.

Our agenda of the conference features expert advice and cutting-edge research that helps us better recognize the dynamics of the field. Adv. Immunology 2024 will foster a few technological advances that could help shape immunology in the future: Precision Immunotherapy, Single-Cell Analysis, Artificial Intelligence (AI), Next-Generation Sequencing (NGS), Nanotechnology, 3D Printing, Advanced Imaging Techniques, Synthetic Biology, Microfluidics and Biomaterials.

I believe that the new conference will provide valuable insights, connections, and opportunities for personal and professional growth. We are delighted to have you join us, and we look forward to the fruitful discussions, engaging debates, and memorable experiences that lie ahead.

I'm looking forward to interacting with all of you at this outstanding conference in Barcelona 2024.

With best regards,

Adv. Immunology 2024

WELCOME MESSAGE

Dear Colleagues and Friends

It is a great honor and privilege for us to invite you to the **2nd Euro-Global Summit on Advances in Clinical and Cellular Immunology**, which will be held on **September 23 and 24, 2024**, in a beautiful place called **Barcelona, Spain**.

In the fast-paced field of immunology, technological advances are not merely incremental but revolutionary, opening up new avenues for understanding complex immune mechanisms and creating novel treatments for a variety of diseases. Hence, our summit aims to spotlight trending technological marvels that are set to redefine the future of immunology, such as Precision Immunotherapy, Single-Cell Analysis, Artificial Intelligence, Next-Gen Sequencing, Nanotechnology, 3D Printing, Advanced Imaging, Synthetic Biology, Microfluidics, and Biomaterials.

Adv. Immunology 2024 will feature keynote sessions, distinguished speaker talks, poster presentations, young investigator forums, panel discussions and B2B meetings. It gives a perfect platform for researchers from all around the world to showcase their innovative work to the scientific community.

The primary objective of this conference is to establish a robust platform for the purpose of facilitating the exchange of knowledge and skills among participants. By doing so, we aim to cultivate a dynamic and stimulating environment that will serve as a catalyst for the development of novel approaches and new research directions.

We're confident that this forum will not only deepen your understanding, but also expand your professional connections, thereby enhancing both your personal and career landscape.

I am eagerly anticipating the opportunity to engage with all participants at this remarkable event.

With best regards,

Adv. Immunology 2024

Organizing Committee

Peers Alley Media, Canada

PRESENTATION FORUM

**i**

KEYNOTE FORUM / MINI-PLenary SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

**i**

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

**i**

STUDENT FORUM POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

**i**

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

i

EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/ CORPORATE WORKSHOPS/MINI-SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

i

HIGHLIGHTS OF THE DAY SESSIONS

“Highlights of the Day Sessions” is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

i

MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

i

EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

TIME TO
CONNECT

WITH YOUR
PEERS

CONCURRENT EDUCATIONAL SESSIONS

MONDAY – SEPTEMBER 23, 2024

- Autoimmunity
- Immune Mechanisms

- Cancer Immunology and Immunotherapy
- Epidemiology

GROUP PHOTO | COFFEE BREAK

- Immune System
- Immunodeficiency

- Immunogenetics
- Immunoinformatics

LUNCH BREAK

- Immunological Techniques
- Immunology

- Immunology of Infectious Diseases
- Immunotherapy

COFFEE BREAK

- Immunotoxicology
- Neuroimmunology

- Parasite Immunology
- Pediatric Immunology

CONCURRENT EDUCATIONAL SESSIONS

TUESDAY – SEPTEMBER 24, 2024

- Reproductive Immunology
- Transplantation Immunology

- Tumor Immunology
- Viral Immunology

GROUP PHOTO | COFFEE BREAK

- Antigen Processing and Presentation
- Inflammation

- Translational Immunology
- Cytokines and Chemokines

LUNCH BREAK

- Hematopoiesis and Immune System Development
- Hypersensitivity, Asthma, and Allergic Responses

- Immunology Education
- Innate Immune Responses and Host Defense

COFFEE BREAK

- Vaccines and Immunotherapy
- Technological Innovations in Immunology

- Microbial, Parasitic, and Fungal Immunology

3RD GLOBAL SUMMIT ON ADVANCES IN CLINICAL AND CELLULAR IMMUNOLOGY

September 23-24, 2024
Barcelona, Spain

<https://future-immunology.peersalleyconferences.com/>

Featured Speakers

Presentation Titles

Marina Bakay

The Children's Hospital of Philadelphia, USA

Decoding Autoimmune Control: The Intricacies of CLEC16A Regulation

Adel Haque

Pennsylvania Dermatology Partners, USA

Comparing Clinical Trial Drug Efficacy of Biologics for Atopic Dermatitis by Patient Level Characteristics

Jacki Kornbluth

Saint Louis University, USA

Natural killer cell-derived extracellular vesicles kill treatment-resistant tumor cells

Hector Fabio Bonilla

Stanford University, USA

Therapeutic trials for long COVID-19: A call to action from the intervention's taskforce of the RECOVER initiative

Akira Shibuya

University of Tsukuba, Japan

Enhanced Efferocytosis Ameliorates Ischemic

Kazuko Shibuya

University of Tsukuba, Japan

Tumor-derived soluble CD155 inhibits DNAM-1-mediated tumor immunity

SPEAKER SLOTS AVAILABLE

Jinjing Xu

Yangzhou University, China

The dual role and mutual dependence of heme/HO 1/Bach1 axis in the carcinogenic and anti-carcinogenic intersection

Yasushi Matsumoto

NHO Kanazawa Medical Center, Japan

Clinical and Immunopathological Feature of Cardiovascular Immunoglobulin G4-related Diseases and their Therapeutic Outcome

HongZhe Zhang

Guizhou Medical University, China

ACE2-hAMSCs improve pulmonary vascular remodeling in pulmonary hypertension rats by promoting angiogenesis

Ashley Khouri

University of Utah School of Medicine, USA

Cancer Treatment Decision-Making for People Living With HIV: Physician-Reported Barriers, Facilitators, and Recommendations

Nir Ben-Chetrit

Sandra and Edward Meyer Cancer Center, USA

Breast Cancer Macrophage Heterogeneity and Self-renewal are Determined by Spatial Localization

Mirette Hanna

University of Toronto, Canada

RBC alloimmunization among pediatric Transfusion-Dependent Thalassemia Patients

Quanjun Yang

Shanghai Sixth People's Hospital, China

BCKDK Modification Enhances the Antitumor Efficacy of CAR-T Cells by Reprogramming Branched Chain Amino Acid

Jiri Mestecky

University of Alabama Birmingham, USA

Global impact of Epstein-Barr virus infection in autoimmune diseases, including immunoglobulin A nephropathy

Faris QB Alenzi

Prince Sattam bin Abdulaziz University, Saudi Arabia

Survivin is an Inhibitor of Apoptosis in COVID-19 Infection and its Link to the Treatment Protocols

SPEAKER SLOTS AVAILABLE

.....

Yong Lu

Weill Cornell Medicine, China

Elimination of acquired resistance in immune checkpoint blockade therapy

.....

Salsabeal Al Saedy

Washington State University, USA

Vemurafenib- and Cobimetinib-Associated Drug Reaction with Eosinophilia and Systemic Symptoms in a Patient with Metastatic Melanoma

.....

Noha Ali Saleh

Imam Abdulrahman Bin Faisal University, Saudi Arabia

In-Silico Investigation: Peptidomimetic Fullerene-Based Derivatives Targeting SARS-CoV-2 Mpro

.....

Mohamed Abdelbary Wafa Mowafy

Imam Abdulrahman Bin Faisal University, Dammam, Saudi Arabia

Another battlefield within the war against viruses

.....

Dennis E. Hruby

SIGA Technologies, USA

Emerging pharmacological strategies for treating and preventing mpox

.....

Uzoma Kenenth Egeonu

Southern Illinois University, USA

Epidemiological modeling with differential equations

.....

Yong-Le Pan

DEVCOM Army Research Laboratory, USA

Real-time detection of single bioaerosol particles via differential circular polarization scattering (CIDS)

.....

Roger F Butterworth

University of Montreal, Canada

Potential For the Repurposing of Adamantane Antivirals for Covid-19

.....

Yahya Ahmed Alamir

Jazan University, Saudi Arabia

A theoretical model of college students' sleep quality and health-related quality of life

.....

SPEAKER SLOTS AVAILABLE

.....

Debra Chew

Rutgers New Jersey Medical School, USA

Outcomes Among Patients Hospitalized for COVID-19 Treated with Remdesivir in an Urban Center Pre-COVID-19 Vaccination

.....

Kazuyuki Yoshizaki

Osaka University, Japan

Prediction of the targeted immunotherapy based on the pathogenic mechanism for chronic inflammatory disease

.....

Alice Mostafa

University of Liège, Belgium

Unravelling the role of nuclear INPP5K in B cells biology: Insights into B cell activation and splicing regulation

SPEAKER'S TESTIMONIALS

ADV. IMMUNOLOGY 2023

<https://future-immunology.peersalleyconferences.com/>

Testimonials

Michael Bukrinsky

The George Washington University, USA

The talks of Future Virology 2023 were very interesting and the topics covered a very wide area of knowledge.

I am at the advanced stage of my career, when further development can be only incremental. But I learned some interesting new facts and approaches. I am not sure I will be able to use them in my studies, but I will mention them in my lectures to students.

The talks were very interesting, and the speakers did a good job.

Muhammad Ashraf Khan

Elementary and Secondary Education Department, Pakistan

The event Future Virology 2023 works well by introducing myself, my research work, and new findings and contributing to the existing knowledge of the world.

Peers Alley Media, Canada did a good job.

Mousa Qatawneh

Queen Rania children's Hospital, Jordan

Greetings.

Thank you for the outstanding conference. The quality of talks was very high. It increased our knowledge regarding the last updates in the medical field.

The event was great.

Jacques Pouyssegur

University Cote d Azur, France

First CONGRATULATIONs to bring this meeting to a great success considering the competition in the VIROLOGY topic.

The format of 20 minutes well respected talks was good and personally I appreciated the variety of topics as well as the quality of the presentations and above all the quality of the Abstract Booklet.

I was not able to assist to all talks and some were absolutely outstanding like the one of Alfredo Berzal-Herranz from Spain. I will certainly invite him for a seminar in our Institute in Nice.

Again, THANK you so much ANNIE for the high quality of this event.

Testimonials

Sabin KC

Gandaki Medical College, Nepal

Greetings!

It was a wonderful time with you all. I would like to thank global virology congress for giving me this opportunity.

Ikuma Kasuga

Tokyo Medical University, Japan

I enjoyed the meeting.

The content, program plan and speakers selection were all excellent.

Thank you very much for your perfect job, and all the best!

Alberto E Munoz

Universidad de Buenos Aires, Argentina

The quality of the presentations at Adv. Immunology 2023 were very good.

Peers Alley Media, Canada did a good job in the selection of speakers.

Michael Kolman

Advocate Lutheran General Hospital, USA

Thank you for the opportunity!

The quality of talks at the conference was great. I felt like I learned a lot regarding a multitude of immunology topics. I do think that this was a great experience and will look very good on my CV!

Testimonials

Silvia Anett Meja Rodriguez

Proderma, El Salvador

The quality of the talks were very good and impressive. The event did contribute a lot to my professional development and enhanced my curriculum. And yes Peers Alley Media did a good job giving instruction that were helpful for the presentation and information in general.

Mousa Qatawneh

Queen Rania children's Hospital, Jordan

Greetings.

Thank you for the outstanding conference. The quality of talks was very high. It increased our knowledge regarding the last updates in the medical field.

The event was great.

NETWORKING... CONFERRING... FOSTERING

Attending a Conference isn't all about Learning and Networking

DISCOVERING

A right choice of conference destination is an important aspect of any international conference and keeping that in consideration, **Adv. Immunology 2024** is scheduled in the Beautiful city "Barcelona".
