WHO SHOULD ATTEND

Directors, CEO’s | Association president’s | Vice Presidents and professionals | Renowned speakers | Scientists | World-class Professors | Researchers & Academicians | Educationalists | Cardiologists | Cardiac Surgeons | Non-Invasive Cardiologist | Non-Interventional Cardiologist | Interventional Cardiologist | Electrophysiologists (EP) | Healthcare Professionals | Cardiothoracic Surgeons | Cardiology Physicians | Nurse Practitioners | Cardiovascular Researchers | Cardiovascular Doctors | Cardiovascular Scientists | Electrophysiologists | Cardiac Sonographers | Cardiac Perfusionists | Medical Students | Ph.D. Fellows

EUROPEAN CARDIOLOGY AND CARDIOVASCULAR RESEARCH CONGRESS

April 06-07, 2020
PARIS, FRANCE

2 DAYS WITH MORE THAN 45 SESSIONS, KEYNOTES & TALKS

12+ INNOVATIVE FEATURED SPEAKERS

20+ HOURS OF NETWORKING EVENTS

60+ INTERNATIONAL SPEAKERS

125+ EDUCATIONAL SESSIONS
PRESENTATION FORUM

KEYNOTE FORUM / MINI-PLENARY SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field get an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

STUDENT FORUM

POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

NO SECRET IS SAFE SHARE YOUR RESEARCH

https://cardiology.peersalleyconferences.com
With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions give an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

"Highlights of the Day Sessions" is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that give an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

Cardiology | Clinical Cardiology | Heart diseases | Hypertension | Electrocardiography | Cardio-Oncology | Interventional Cardiology | Nuclear Cardiology | Cardiac Nursing | Pediatric Cardiology | Stroke | Cardiac Surgery | Thombosis | Heart Arrhythmia | Valvular Heart Disease | Pulmonology and Cardiology | Atherosclerosis | Sports Cardiology | Cardiac Imaging | Vascular Biology | Cardiology Case Reports | Geriatric Cardiology | Cardiovascular Pharmacology | Robotic Cardiac Surgery | Cardiac Regeneration | Dyslipidemia | Cardiovascular Disease | Congestive Heart Failure | Acute Coronary Syndrome

### Concurrent Educational Sessions
TUESDAY, APRIL 07, 2020

#### Cardiology Case Reports
- Case Reports on Heart Disease & Failure
- Case Reports on Vascular Heart Disease
- Case Reports on Myocardial and Pericardial Disease
- Case Reports on Pediatric Cardiology
- Case Reports on Arrhythmias
- Case Reports on Atherosclerosis
- Case Reports on Hypertension and Healthcare
- Case Reports on Heart Regeneration
- Case Reports on Cardiac and Cardiovascular Research
- Case Reports on Heart Diagnosis
- Case Reports on Heart Devices

#### Cardiovascular Pharmacology
- The Cardiovascular Physiology and Pharmacology of Endothelin-I
- Vascular Pharmacology of Epoxyeicosatrienoic Acids
- Prostaglandins in Action
- TP Receptors and Oxidative Stress
- Regulation of Endothelial Cell Tumor Necrosis Factor-
- Polyphenol-Induced Endothelium-Dependent Relaxations
- Organic Nitrates and Nitrate Tolerance
- Vascular Actions of Adipokines

#### ROBOTIC CARDIAC SURGERY
- Anesthesia for Robotic Cardiac Surgery
- Robotic Mitral Valve Surgery
- Robotic Coronary Bypass Graft on Beating Heart
- Robotic Surgery in Congenital Heart Disease
- Intraoperative Transesophageal Echocardiography
- Hybrid coronary revascularization
- Robotic Left Ventricular Epicardial Lead Implantation

#### Cardiac Regeneration
- Cell Based Heart Repair
- Progenitor Cells from the Adult Heart
- Direct Cardiac Reprogramming
- Cardiomyocyte Transplantation
- Tissue Engineered Heart Repair
- Imaging Cardiac Stem Cell Therapy
- Stem Cell Transplant Immunology
- Tissue graft cardiac cell

#### Dyslipidemia
- LDL Cholesterol
- HDL Cholesterol
- NON-HDL Cholesterol
- High Sensitivity C-Reactive Protein
- Stratification of Dyslipidemia Risk
- Advanced Lipoprotein Testing
- Drugs for Treatment of Blood Lipoprotein Abnormalities

#### Congestive Heart Failure
- Epidemiology & pathophysiology of heart failure
- Differential Diagnosis of Congestive heart failure
- Pharmacologic therapy of Heart Failure
- Clinical approach to acute heart failure
- Clinical approach to chronic heart failure
- The diagnosis and management of Congestive heart failure

#### Acute Coronary Syndromes
- Reduction of Atherothrombosis for Continued Health
- Pathogenesis: Acute Coronary Syndrome
- Molecular Mechanisms: Acute Coronary Syndrome
- Immune System in Acute Coronary Syndrome
- Myocardial Cell Death and Regeneration
- Pharmacogenomics
- Acute Ischemic Heart Disease

#### Cardiac Imaging
- Ischemic Heart Disease
- Heart Failure
- Acquired Valvular Heart Diseases
- Cardiomyopathy
- Cardiovascular Computed Tomography
- Cardiovascular Magnetic Resonance
- Great Vessel Abnormalities
- Congenital Heart Disease
- Coronary Artery Variant and Anomalies
- Coronary Artery Disease
- Myocardial Disease-Ishemia and Infarction
- Myocardial Disease-Cardiomyopathy

#### Vascular Biology
- Physiology of Blood vessels
- Immunology of the vessel wall
- Biology of the vessel surface
- The endothelial cell
- Vascular smooth muscle cells
- Arteriogenesis Vs Angiogenesis
- The lymphatic system
- Pathogenesis of atherosclerosis
- Atherosclerosis
- Molecular Mechanisms
- Pathophysiology of other cardiovascular diseases
- Valvular heart diseases

#### Geriatric Cardiology
- Cardiology
- Geriatrics
- Elderly care
- Heart diseases
- Atherosclerosis
- Peripheral arterial disease

#### Pulmonology and Cardiology
- Allergic bronchopulmonary aspergillosis
- Asthma
- Chronic obstructive pulmonary disease
- Chronic bronchitis
- Emphysema
- Cystic fibrosis
- Lung cancer diagnosis
- Pneumococcosis
- Pneumonia
- Pneumothorax
- Pneumococcosis
- Pulmonary embolism

Euro Cardiology 2020 is scheduled in the Beautiful city “Paris”.

A right choice of conference destination is an important aspect of any international conference and keeping that in consideration, Euro Cardiology 2020 is scheduled in the Beautiful city “Paris”. 

Avenue des Champs Élysées

Bustling Boulevards and Legendary Cafés

Cathédrale Notre Dame de

Arc de Triomphe

Eiffel Tower

Luxembourg Gardens

Musical Concerts at Sainte Chapelle

Musée d’Orsay

Musée du Louvre

Palais Garnier, Opéra National de Paris

Place de la Concorde

Seine River Cruises
