

6TH INTERNATIONAL CONFERENCE ON

FUTURE OF PREVENTIVE MEDICINE AND PUBLIC HEALTH

MARCH 23-24, 2026 | ROME, ITALY

Theme: "Transforming Health Systems through Innovation and Integration: Uniting Research, Technology, and Clinical Practices to Deliver Personalized, Affordable, and Sustainable Healthcare"

FUTURE OF PMPH 2026

SUB THEMES

- Global Health Security and Pandemic Preparedness
- Advances in Personalized and Preventive Medicine
- Integration of Digital Health Technologies in Preventive Medicine
- Behavioral Interventions and Lifestyle Modifications
- Advancements in Vaccination and Immunization Strategies
- Workplace Health and Wellness Programs
- Patient Education and Self-Management
- Mental Health and Preventive Strategies
- Climate Change and Public Health: Impacts and Adaptation
- Addressing Health Inequities and Enhancing Access to Preventive Services
- Data-Driven Approaches to Preventive Medicine
- Innovations in Nursing Practice and Patient Care

WHY TO ATTEND?

What you take

Attending a healthcare conference offers a unique opportunity to connect with leading professionals, explore emerging trends in medicine and public health, and gain insights into groundbreaking innovations. It plays a vital role in career development by enhancing clinical knowledge, expanding skill sets, and opening new doors for collaboration and advancement.

WHO SHOULD ATTEND?

Dear Colleagues,

It is my great honor on behalf of the organizing committee (PAM) to strongly invite you to the upcoming “**6th International Conference on the Future of Preventive Medicine and Public Health (PMPH)**” which takes place **March 23–24, 2026**, in the very special and holly city of **Rome, Italy**.

This PMPH conference will address the most important issues and some innovations in healthcare, relevant to distinguished scientists, scholars, business professionals, industries, faculty, institutions, and students from around the world.

This sharing of leading-edge preventative measures in healthcare and medicine is always benefit for attendees, speakers or public.

As we progress to a new era in healthcare, propelled by remarkable new technological advances, the promise of this future is enormous. From top solutions to digital health, to wearable technologies, artificial intelligence, virtual reality/augmented reality, 3D printing, robotics, and nanotechnology, innovations are reshaping healthcare systems at any unprecedented pace.

But the challenges are also enormous from special needs of poor countries, pandemics, war, domestic violence, lack of education, health politics, disasters, climate changes, and much more....

Together, let us endeavour to address these future challenges that lie ahead and work towards the development of novel solutions that will benefit humanity.

A MAJOR CONCERN that we special wish to promote in Rome is the importance of INTERNATIONAL NETWORKING for all speakers and public involved – be it doctors, students, researchers, or industry professionals.

Therefore, our conferences will serve as a vital platform for this purpose, facilitating collaborations between all participants. Networking enables the exchange of ideas, best practices, and experiences, leading to innovative solutions and advancements in preventive medicine and public health. Throughout the two days of this innovative conference, we aim to really promote this purpose in healthcare and medicine.

I would encourage you to consider this opportunity to JOIN US and learn from the distinguished speakers participating in the Future of PMPH 2026 conference in ROME!

Sincerely yours

António Rui LEAL, M.D. PhD
President of SANITUS Foundation
Invited Professor of ICBAS-UP
Porto, PORTUGAL

GÜLSEN MERAL

Associate Professor of Pediatrics
Medical Genetics Epigenetic Coaching, London, UK

Dear Esteemed Guests,

It is with great pleasure and enthusiasm that I welcome you all to the **6th International Conference on the Future of Preventive Medicine and Public Health (Future of PMPH 2026)**, to be held on **March 23–24, 2026**, in the historic city of **Rome, Italy**.

Our world continues to evolve rapidly, bringing new challenges and opportunities to the field of preventive medicine and public health. In this ever-changing landscape, this conference provides a vital platform to come together—across disciplines, borders, and perspectives—to exchange innovative ideas, share impactful research, and strengthen our global community.

Having experienced the inspiration and knowledge exchange of PMPH 2025, I am confident that the 2026 edition will be even more enriching and dynamic. I warmly invite each of you—academics, practitioners, policymakers, and students—to be a part of this transformative event.

Let us collaborate, innovate, and lead the way toward a healthier and more resilient future.

Looking forward to welcoming you in Rome!

Warm regards,

Gülsen Meral, MBA, MD, PhD
Associate Professor of Pediatrics
PhD Medical Genetics
Epigenetic Coaching
London, UK

Università
San Raffaele
Roma

PROF. GIOVANNA CAPILLI

Professore Ordinario di Diritto Privato -
Università San Raffaele Roma

Dear Esteemed Guests,

It is with great pleasure that I welcome you to the **6th International Conference on the Future of Preventive Medicine and Public Health**, taking place on **March 23-24, 2026**, in the beautiful city of **Rome, Italy**.

This year's conference promises to be an exciting and enriching experience, bringing together a diverse group of experts from various fields—including scientists, healthcare professionals, policymakers, business leaders, legal scholars, and students—from all around the world. The interdisciplinary nature of the event is at the heart of its value, and we aim to foster meaningful collaborations that will drive innovative solutions in preventive medicine, public health, and the legal frameworks that support them.

The presence of legal experts is especially significant, as the intersection of law and healthcare plays a critical role in shaping policies, protecting patient rights, and ensuring that advancements in medical practice align with ethical standards. We are excited to bring together professionals from the medical, public health, legal, and technological sectors, providing a unique environment for interdisciplinary dialogue and the creation of integrated approaches to complex global health challenges.

By engaging in these diverse conversations, we can deepen our understanding of how law, medicine, and public health can work together to improve global health outcomes. We look forward to facilitating discussions that will spark new ideas and collaborations that will have a lasting impact on both theory and practice.

We are thrilled to welcome you to Rome, a city rich in history and culture, and we are confident that this conference will provide invaluable opportunities for networking and learning.

We look forward to seeing you in March 2026!

Best Regards,

Prof. Giovanna Capilli
Professore Ordinario di Diritto Privato - Università San Raffaele Roma

PRESENTATION FORUM

01

KEYNOTE FORUM / MINI-PLenary SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

02

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

03

STUDENT FORUM / POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

04

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

05

EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/ CORPORATE WORKSHOPS/MINI- SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

HIGHLIGHTS OF THE DAY SESSIONS

“Highlights of the Day Sessions” is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

06

07

MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

CONCURRENT EDUCATIONAL SESSIONS

MONDAY - MARCH 23, 2026

- Preventive Medicine
- Public Health and Healthcare

- Healthcare, Services and Technologies
- Healthcare Innovations

GROUP PHOTO | COFFEE BREAK

- Advanced healthcare
- Digital Health

- Primary Care
- Occupational Health and Safety
- Healthcare and Medical Informatic

LUNCH BREAK

- Personalized and Precision Medicine
- Preventive Medicine and Diabetes

- Preventive Medicine and Pediatrics
- E-Health

GROUP PHOTO | COFFEE BREAK

- Preventive Medicine and Geriatrics

- Healthcare Statistics and Research

CONCURRENT EDUCATIONAL SESSIONS

TUESDAY - MARCH 24, 2026

- Healthcare and Patient Safety
- Preventive Medicine and Community Health

- Preventive Medicine and Internal Medicine
- Women's Health Gynecology

GROUP PHOTO | COFFEE BREAK

- Healthcare and Midwifery
- Preventive Medicine and Oncology

- Preventive Medicine and Behavioral Health
- Psychology and Psychiatric Disorders

LUNCH BREAK

- Healthcare and Tropical Disease
- Preventive Medicine and Pharmaceuticals

- Preventive Medicine and Infectious Disease
- Preventive Medicine and Dentistry

GROUP PHOTO | COFFEE BREAK

- Healthcare and Sociology
- Preventive Medicine and Adolescent Medicine

- Preventive Medicine and Sport Medicine
- Preventive Medicine and Family Medicine

6TH INTERNATIONAL CONFERENCE ON FUTURE OF PREVENTIVE MEDICINE AND PUBLIC HEALTH

MARCH 23-24, 2026
ROME, ITALY

<https://www.futurehealthcareconferences.com/>

Featured Speakers

Nicholas Torres

The Network: Towards Unity for Health, USA

Tine Hansen-Turton

Woods System of Care, USA

Shylah Schauer

Microbiome Health Tech LLC, USA

Karim Hardy

Embry-Riddle Aeronautical University, USA

Aram A. Bani

Ambulatory Spine Center, Germany

Michael Feuerstein

Uniformed Services University of the Health Sciences, USA

Menikae K Hennkenda

Linköping University, Sweden

Yotam Harel

University of Oxford, UK

Jay Ashesh Jani

Emory School of Medicine, USA

Presentation Titles

Empowering Faculty in Socially Accountable Medical Schools

The Mollie Woods Hare Global Center of Excellence: Advancing Research, Training, and Inclusive Care for Individuals with Autism and Intellectual Disabilities

Preventing Mental Health Disorders Through the Microbiome: Stool Biomarkers as Early Warning

The Hormetic Model of Accident: An Innovative Framework for Prevention and Resilience in Public Health

Cost-Efficiency vs. Systemic Barriers: The Case of Outpatient Spinal Surgery

Global Public Health and Cancer Survivorship

In precision medicine consideration must be given to, among other things, aging, genetics and global diversity

AI, Mental and Physical Labor, and a Just Policy Framework.

Missing the Message to Brain Tumor Patients: A 2023 Twitter Analysis Among Patients, Informal Caregivers, and Healthcare Professionals in Glioblastoma Multiforme

SPEAKER SLOTS AVAILABLE

Jamie L Banks

Quiet Communities Inc, USA

Community Impacts of Aviation Noise and Implications for Policy

Denise Marie Hradecky

Health Care Management, Interorganizational –
Denise Hradecky, Germany

**Transparency in Healthcare
Methodological Approaches for Informed
Decision-Making**

António Rui Marcelino Leal

Sanitus Foundation, Portugal

**VITABALANCE-MED – INCLUSIVE
Improving an educational project for a new
paradigm of global and inclusive health**

Hiroshi Nishiura

Kyoto University, Japan

**Transmission dynamics of dengue in
Taiwan**

Mary E. McCloskey

Celtic Counseling Inc., USA

**Comprehensive Care for People with
Behavioral Addictions and Co-Occurring
Disorders**

Hana Kahleova

Physicians Committee for Responsible Medicine,
USA

**Vegan Diet, Processed Foods, and Body
Weight: A Secondary Analysis of a
Randomized Clinical Trial**

Cristina M. Tato

Chan Zuckerberg Biohub San Francisco, USA

**From Patients to Populations: Application
of pathogen metagenomics in the clinic
and the field**

Roger Jones

University of North Carolina at Chapel Hill, USA

**Achieving and Maintaining Homeostasis
with Molecular Computers**

Benedict Lacner

Diabetes Specialist Practice, Germany

**Heat and Diabetes: Clinical Perspective
Implications of Rising Temperatures on
Diabetes Care and Prevention**

Justin Z. Laferrier

Johnson & Wales University, USA

**The Effects of Blood Flow Restriction on
Individuals with Ehlers Danlos Syndromes**

Kinza Tareen

University of Michigan, USA

**Preventive Psychiatry in Transplant
Medicine: Reimagining Models of Care to
Optimize Transplant Outcomes**

Kevin Patton

University of Nebraska at Omaha, USA

An Enforceable Set of Principles

Sudipta Mohanty

Beth Israel Deaconess Medical Center, USA

**Joint Efforts: A Review of Large Joint and
Bursa Steroid Injections and Aspirations
in Primary Care**

SPEAKER SLOTS AVAILABLE

Aditya Mohanty University of Miami, USA	Joint Efforts: A Review of Large Joint and Bursa Steroid Injections and Aspirations in Primary Care
Evelina Weidman Sterling Kennesaw State University, USA	Health Literacy and Digital Health Literacy: Addressing Disparities Among African American/Black Men

Attending a Conference isn't all
about Learning and Networking

DISCOVERING

A right choice of conference
destination is an important aspect
of any international conference
and keeping that in consideration,
Future of PMPH 2026 is scheduled
in the Beautiful city "Rome".

ROME

Rome, the capital of Italy, is a city steeped in history, culture, and architectural marvels. Often referred to as "The Eternal City," Rome seamlessly blends its ancient heritage with modern vibrancy, making it one of the most captivating destinations in the world

As the heart of the Roman Empire, Rome boasts an extraordinary past dating back over 2,500 years. Iconic landmarks such as the Colosseum, Pantheon, and Roman Forum stand as testaments to its glorious history. The Vatican City, an independent city-state within Rome, is the spiritual and administrative center of the Roman Catholic Church and home to St. Peter's Basilica and the Sistine Chapel, featuring Michelangelo's breathtaking frescoes.

Rome is a haven for art lovers, with world-renowned museums such as the Borghese Gallery and Capitoline Museums housing masterpieces by artists like Caravaggio, Raphael, and Bernini. The city's architecture reflects various periods, from classical Roman to Renaissance and Baroque styles.

Italian cuisine thrives in Rome, where traditional dishes like carbonara, cacio e pepe, amatriciana, and supplì (fried rice balls) are must-tries. The city's lively piazzas, such as Piazza Navona and Campo de' Fiori, offer a charming atmosphere filled with cafés, restaurants, and street performers.

SPEAKER'S TESTIMONIALS

AMSTERDAM

MARCH 18-19, 2024

FUTURE OF PMPH 2024

<https://www.futurehealthcareconferences.com/>

TESTIMONIALS

I want to congratulate both of you for organizing and supervising this great meeting in Amsterdam in March 2024.

The variety of talks and the rich interactions between the speakers made the Future of PMPH 2024 meeting very interesting and informative.

HASSAN M. HESHMATI

ENDOCRINOLOGY METABOLISM CONSULTING, LLC, USA

Thank you for your invitation, I had a lovely time in Amsterdam and appreciated the opportunity to share my research with such a diverse group at Future of PMPH 2024.

JORDAN PERCHIK

UNIVERSITY OF ALABAMA AT BIRMINGHAM, USA

I thoroughly enjoyed each of the talks at Future of PMPH 2024. It was deeply inspiring to me to learn about the variety of scientific topics, the professional's demonstrated success, humility, and curiosity in their field, and how each topic holds incredible potential to positively impact public health across the globe.

Peers Alley Media, Canada did a great job selecting speakers from across the globe for thought-provoking sessions on the future of preventative medicine and public health. I was deeply humbled to have been invited to represent my field among all these amazing and brilliant scientists. It was immediately clear to me that if the threads of science presented at this conference take hold, each can and will revolutionize the future of public health for the global good of all.

BRENDA J. HANLEY

WILDLIFE HEALTH LAB, CORNELL UNIVERSITY, USA

TESTIMONIALS

Thank you very much for your kind words and for extending your gratitude regarding my presentation at the Future of PMPH 2024 event hosted by Peers Alley Media, Canada.

I am truly honored to receive the Certificate of Recognition from your esteemed organization. It means a lot to me to be recognized for my contribution to the event.

Once again, thank you for this recognition, and I look forward to future collaborations.

GOODSON CHAIDAMOYO DZENGA

UNIVERSITY OF MONTANA WESTERN, USA

The Future of PMPH 2024 was really well organized. Everyone knew where to go, everyone was very friendly from the organization!

Some presentation had more value than I have anticipated beforehand. The small amount of people also made it possible to connect better with each other, which was really nice.

The speakers were very nice and well prepared! Thank you!

VANESSA B. BASTEK

KLINIKUM REGION HANNOVER PSYCHIATRIE WUNSTORF, GERMANY

The quality of talks was really good at Future of PMPH 2024! Everybody had very interesting topic and presentations were inspiring.

I am very impressed by the variety of topics presented. Despite the fact that I am not a medical professional myself, I felt that the presentations were very varied for listeners from other disciplines. You had definitely chosen really good speakers.

SIRPA M. MANNINEN

UNIVERSITY OF EASTERN FINLAND, FINLAND

I wanted to take a moment to provide some feedback on my experience as an online invited speaker at the recent Future of PMPH 2024. Overall, I am grateful for the opportunity to participate and share my insights with the audience.

I want to express my appreciation for the opportunity to be part of Future of PMPH 2024. I thoroughly enjoyed sharing my insights and connecting with the audience, albeit virtually.

Once again, thank you for inviting me to be a part of the conference. Please feel free to reach out if you have any questions or if there are any further opportunities for collaboration in the future.

SURANI MATHARAARACHCHI

UNIVERSITY OF MANITOBA, CANADA

The 4th International Conference on Future of Preventive Medicine and Public held on March 18-19, 2024 in Amsterdam, Netherlands was a great event. In addition to meeting a large number of eminent speakers from all over the world, we also had the opportunity to exchange experiences. The organization of this top event was excellent, which is the result of the great professionalism of the organizers. It was an honor to be a part of this event and I would love to participate again, as a speaker, moderator or in some other role. With all respect

MIRZA KOVACEVIC

CANTONAL HOSPITAL, ZENICA, BOSNIA AND HERZEGOVINA

Congratulations on the organization of Future of PMPH 2024, a lot of serious work! All topics were qualitative and important. The studies held by the lecturers gave us knowledge to include in the curricula of our students. I think that Peers Alley Media successfully accomplished its mission.

YLLKA STRAMARKO

UNIVERSITY OF VLORE "ISMAIL QEMALI", ALBANIA

I truly thanks to Peers Alley Media for the opportunity to present my research and contributions in the field of mental health prevention. I wish you succeed on the upcoming conferences of Future of PMPH.

The quality of the talks was excellent at Future of PMPH 2024. The material presented by each speaker showed time and commitment in their preparation.

Being able to appreciate step by step the methodologies used by other experts in areas complementary to mine and the contribution to health prevention from different perspectives, allowed me to place my research and contributions globally and consider new approaches from a new perspective.

Absolutely, the most interesting thing for me was having the opportunity to appreciate the work that is done around the world to preventive health from different perspectives, from different fields in which we normally approach only through the media and in which the information is summarized.

EDITH SÁNCHEZ-JARAMILLO

INSTITUTO NACIONAL DE PSIQUIATRÍA RAMÓN DE LA FUENTE MUÑOZ, MÉXICO

It is a pleasure for me to give the feedback for the conference. The quality of talks at Future of PMPH 2024 were of outstanding quality and the presenters were very professional. The topics covered actual trends of healthcare and medicine and the future of Public health was easily evidenced from the implications of the presentations. I have learned a lot and have inspired me for future projects and collaborations.

I think that the contribution will be at a great scale, starting from the expansion of the network, following the rise of autostem and the update with the latest trends in the medicine and healthcare research carried out by distinguished researchers and academics.

The Peers Alley Media did a great job in selecting the speakers, the topics and in the organization of the overall event.

FATJONA KAMBERI

UNIVERSITY OF VLORE "ISMAIL QEMALI", ALBANIA

I am very happy that I had the opportunity to participate in the 4th International Conference on the Future of Preventive Medicine and Public Health (The Future of PMPH 2024).

The quality of talks in the Future of MPPH 2024 was of a very good level. This was shown by the participating professionals who manage to refer to very good quality topics, in accordance with the theme of the Conference. The implementation of interactive questions between the participants based on the topics certainly makes the session diverse and very interesting.

This International Conference will affect my professional development. Being a member of the Scientific Research Center at the Faculty of Health, I appreciate the methodology of scientific research in these topics.

Peers Alley Media, Canada did a good job in selecting speakers for thought provoking sessions for this event.

A professional job on their part.

Thank you for everything!

GLODIANA SINANAJ

*UNIVERSITY OF VLORE "ISMAIL QEMALI", ALBANIA
FUENTE MUÑIZ, MÉXICO*

The quality of talks at the Future of PMPH 2024 was at a very high level, there were many new, relevant knowledge and important aspects of clinical practice.

As for the impact on my professional development, I can say that the topics covered in the conference were all very important not only for clinical practice as a general practitioner, but also for the academic part where I am an active part. The topics were in line with the latest developments in science and technology and will be implemented over time in work practice.

I think Peers Alley Media made it a point to get the job done! The selection of topics and speakers at the conference were chosen very carefully and each presentation was quite interesting and aroused curiosity among the people in the auditorium.

A very serious and prestigious job that deserves to be congratulated and appreciated.

JERINA JAHO

UNIVERSITY OF VLORE "ISMAIL QEMALI", ALBANIA

Everything was well organized for Future of PMPH 2024.
I made very good networking.
The sessions were informative with diversity of respectful speakers.

ALAA NABIL MAHSOON

KING ABDULAZIZ UNIVERSITY, SAUDI ARABIA

Good conference (Future of PMPH 2024) covering all fields.

YAMENG LIU

*TIANJIN UNIVERSITY OF TRADITIONAL CHINESE MEDICINE,

The quality of talks at Future of PMPH 2024 are all good
It will contribute to my professional development.
Peers Alley Media, Canada did a good job.

RUI ZHANG

PEKING UNIVERSITY FIRST HOSPITAL, CHINA

I really enjoyed this conference Future of PMPH 2024. Your teams are great!

Your teams organized this special conference that got together the experts from different interdisciplinary fields.

I will pass this information to my colleagues and I hope I can attend the conference that will be held in London in 2025.

Thank you again.

JIH-HUAH WU

MING CHUAN UNIVERSITY, TAIWAN

Greetings. I sincerely appreciate your team for the wonderful experience in the conference in Amsterdam.

It was my first to join PMPH 2024 and I am glad I learned a lot from speakers. The quality of the talks and presentations were excellent. All speakers showed novel and interesting research findings from sports to patient care and even molecular and mental health sciences. Aside from the diversity in topics, the event also highlights presenters from difference countries which also shows inclusivity and recent updated about the global scholars' interests and that of their nations.

As a nurse researcher and leader, I gained new insights of possible topics which we can explore in our facility. Certain topics like ostracism, HPV vaccine screening approach, and hypnotic therapies were interesting to me and I had a chance to network with the speakers.

The Peers Alley Media Canada did a good job in accommodating us. I personally have a great time in Amsterdam because of the wonderful accommodation. The venue was perfect and conducive for us. We were in constant communication with the staff and they were so nice in attending to our needs. The conference materials were also nice and readily available for everyone.

The best experience in this conference is that we can confidently discuss matters about the topics presented. Certainly because the presentations were interesting and well-presented. There are 3-5 clarifications raised whenever a presentation is completed. It marks how the fellow speakers became interested about the topics.

Overall, I am so glad I joined the conference. I am writing a news article about it so I can post in our facility's newsletter and corporate's website. Thanks Peers Alley Media for the invitation and great experience.

JOHN PAUL BEN SILANG

DIRECTOR OF NURSING RESEARCH, HAMAD MEDICAL CORPORATION, QATAR

I also would like to thank Peers Alley Media for the great coordination of the conference. I had enjoyed my time there as well as I learned about multiple new aspects to me. Especially, the ones related to AI field.

In addition, the speaker were selected rightly and their talks was beneficial.

Thank you once again Peers Alley Media and keep it up.

DOAA MAHMOUD EISA SABIR

HAMAD MEDICAL CORPORATION, QATAR

First of all, thank you for this nice meeting.

The Future of PMPH, I think the quality of the talks in 2024 is very good.

I can say that it contributed to my professional development.

I think Canada's Peers Alley Media made a good choice in selecting the speakers for this event's thought-provoking sessions.

ILGAZ AKDOGAN

AYDIN ADNAN MENDERES UNIVERSITY, TURKEY

I would like to thank you for the Future of PMPH 2024. It is obvious that a lot of effort has been put into it.

Everyone made speeches in their own field of expertise. There was an incredible variety of topics. Of course, the efforts spent for a research cannot fit into a 20-minute speech, but it was clear that the speeches I listened to were made by experts in their fields.

The Canadian team has done a very comprehensive work for this conference. I especially congratulate them on this.

ELIF KAYAALP ATA

GEBZE TECHNICAL UNIVERSITY, TURKEY

I'm grateful for the opportunity to attend the Future of PMPH 2024 Conference, where professionals engaged in discussions on the latest healthcare research. The diverse topics with speakers from around the world provided valuable insights and improved my understanding of the field. The organizer provided excellent management, and it was a great experience, with smooth communication during the talks. Overall, my experience was great, and I am glad to join future events organized by your team.

ZAHRA SHAMS KHOOZANI

UNIVERSITI MALAYA, MALAYSIA

The quality of talks at Future of PMPH 2024 were good and contributed to new knowledge.

I think some of the topics and discussion contributed to professional development.

Peers Alley media has been doing a great job by creating opportunities for researchers and innovators to meet together and share their findings, networking and developing international links and collaborations.

SUDATH WARNAKULASURIYA

UNIVERSITY OF COLOMBO, SRI LANKA

The quality of talks at Future of PMPH 2024 was excellent. Although some of the lectures were not related to my area of specialization, I benefited from attending most of the lectures, and it was interesting to gain information from them. The lectures I attended were professional.

It contributed to my professional development to a good extent. Since I am a dentist, it was beneficial for me to attend two lectures given by professional speakers of the same profession.

Peers Alley Media did a great job in selecting international speakers for this event. All the lectures were well informative and of high level of knowledge.

I look forward to collaborating with you in the future, and to attending Future of PMPH in future events.

YOMNA ADEL WAGIH FAHMY SERAGELDIN

MISR INTERNATIONAL UNIVERSITY, EGYPT

The quality of talks at Future of PMPH 2024 was good.

KUNDOLY VELAYUDHAN SUSEELA

AMALA INSTITUTE OF MEDICAL SCIENCES, INDIA

I am writing in response to your request for a testimonial regarding my experience at the 4th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2024). I am delighted to share my thoughts and provide feedback on the event.

Firstly, I would like to express my appreciation for the quality of talks presented at Future of PMPH 2024. The speakers showcased in-depth knowledge and expertise in their respective fields, delivering insightful presentations that were both informative and engaging. The content covered a wide range of relevant topics, and I found the discussions to be highly beneficial to my professional development.

Speaking of professional development, I believe attending the Future of PMPH 2024 has contributed significantly to my growth in the field of preventive medicine and public health. The conference provided a platform for networking with professionals from diverse backgrounds, facilitating meaningful connections and the exchange of ideas. The knowledge and insights gained from the conference will undoubtedly enhance my work and contribute to my ongoing professional advancement.

I must commend Peers Alley Media, Canada for their excellent job in selecting speakers for thought-provoking sessions during the event. The speakers brought diverse perspectives and expertise, fostering engaging discussions that stimulated critical thinking. The selection process demonstrated a thorough understanding of the subject matter and a commitment to providing attendees with valuable and informative sessions.

NILOOFAR FARAJI LAHIJANI

GUILAN UNIVERSITY OF MEDICAL SCIENCES, IRAN

Hello, I had a wonderful experience at the conference with so many researchers around the globe and looking forward for more such experiences. The quality of talks at Future PMPH 2024 was excellent. It encouraged me for doing more research which will help in my professional development. Overall Peers Alley Media, Canada did a good job.

AISHWARYA PATIL

MGM DENTAL COLLEGE AND HOSPITAL, INDIA

The PMPH 2024 Conference was an honor to attend, and I have to admit that it well surpassed my expectations. The talks at PMPH 2024 were of an exceptionally high caliber. Every speaker provided a distinct viewpoint, supported by reliable research and real-world experience, which made each session interesting and educational. My invited speaker profile has served as a powerful catalyst for visibility and recognition within my Institution. Participating as an invited speaker has been a transformative journey of growth and learning. Peers Alley Media, Canada chose speakers who are highly knowledgeable, experienced, and engaging in their respective fields which made the conference a success. Finally, I would like to thank you, the organizers, for your hard work to make the conference beneficial to all of us.

JANE RUBEL ANGELINA JEYARAJ

KALASALINGAM ACADEMY OF RESEARCH AND EDUCATION, INDIA

The quality of talks at Future of PMPH 2024 was excellent. Although some of the lectures were not related to my area of specialization, I benefited from attending most of the lectures, and it was interesting to gain information from them. The lectures I attended were professional.

I am so glad you gave me such an excellent opportunity to attend the prestigious conference Future of PMPH 2024 in Amsterdam. At my best, I presented and shared my thoughts with experts from across the globe. The organization was so smooth, systematic, and fantastic. Lots of knowledge I learned from different personalities and had an enjoyable experience with various interactions. The knowledge and experience I have gained will be constructive and applicable to my study and research areas in future academic endeavors.

Really, Peers Alley Media selected very thoughtful speakers who can extend adequate practical knowledge and experience from various aspects of different fields.

I heartily thank Peers Alley Media for organizing such a high-knowledge-yielding conference.

I am looking forward to future contributions and collaborations.

LAISHRAM THAMBAL SINGH

MANIPUR UNIVERSITY, INDIA

I hope this email finds you well. I want to express my sincere gratitude for inviting me to participate in the 4th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2024). It was truly an enriching experience, and I am delighted to share my feedback with you.

The quality of talks at Future of PMPH 2024 was exceptional. The speakers provided insightful discussions on various topics within preventive medicine and public health, offering valuable perspectives and innovative approaches to addressing current challenges in the field.

The conference significantly contributed to my professional development by providing me with new knowledge, ideas, and strategies that I can implement in my practice. The diverse range of topics covered during the sessions broadened my understanding and enhanced my skills, ultimately benefiting my career advancement.

Peers Alley Media, Canada, did an outstanding job selecting speakers for thought-provoking sessions for this event. The lineup of speakers was impressive, representing expertise from different sectors and ensuring a comprehensive exploration of relevant issues in preventive medicine and public health.

I am truly grateful for the opportunity to participate in Future of PMPH 2024 and contribute to its success. Thank you for your dedication in organizing such a valuable event for professionals in the field.

Once again, thank you for the invitation and for considering my feedback. I look forward to future collaborations with Peers Alley Media.

MUHAMMAD SUBHAN

ALLAMA IQBAL MEDICAL COLLEGE, PAKISTAN

I'm grateful for the opportunity to attend the Future of PMPH 2024 conference, where professionals engaged in discussions on the latest healthcare research.
