# Welcome Message

Dear Colleagues,

Let me extend a warm greeting to all participants of the The International Conference on Future of Preventive Medicine and Public Health in Berlin, Germany held during June 21-22, 2021 hopefully will attract many participants from different countries. It serves as an opportunity to present and discuss various innovations involved in the study of medicine, healthcare and its research.

I am a medical doctor, and the clinical professor in charge of education and research for cannabinoids based medicine, University of Panama. My Lecture is entitled: Medical Cannabis, Existing Scientific Evidence.

This is an educational lecture targeting medical professionals, over-viewing the levels of evidence for different pathologies, where medical cannabis may be applied as a treatment.

The theme for the international conference is "Rise in Preventive Medicine and Public Health Research Market Through New Medical Technologies, Treatments and Up-to-date Studies Worldwide", seems to be an ordinary duty for all scientists and Specialist nowadays since Preventive Medicine and Healthcare, with its novel trends and constant evolution, is everywhere around us! Get ready for a conference filled with scientific research, education, leadership and practice topics guaranteed to stimulate lively discussions. Honored leaders, renowned experts, distinguished guests and practitioners from all over the globe will attend the congress to share the global perspective of preventive medicine and public health. This international conference will provide the attendees the opportunity to explore preventive medicine and public health across the lifespan from multiple perspectives.

I am honored to be a part of Organizing Committee and look forward to this immersion experience.

Looking forward to seeing you in Berlin, Germany.

# PRESENTATION FORUM

## KEYNOTE FORUM / MINI-PLenary SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

## DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

## STUDENT FORUM

### POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

### YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

## EDUCATIONAL WORKSHOPS/ RESEARCH WORKSHOPS/CORPORATE WORKSHOPS/MINI- SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

## HIGHLIGHTS OF THE DAY SESSIONS

“Highlights of the Day Sessions” is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

## EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

## MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.
