PRESENTATION FORUM

KEYNOTE FORUM / MINI-PLENARY SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

STUDENT FORUM

POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

NO SECRET IS SAFE SHARE YOUR RESEARCH

EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/ CORPORATE WORKSHOPS/ MINI- SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

HIGHLIGHTS OF THE DAY SESSIONS

“Highlights of the Day Sessions” is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

SCIENTIFIC TRACKS/ SESSIONS

Preventive Medicine | Public Health and Healthcare | Healthcare, Services and Technologies | Healthcare Innovations | Advanced healthcare | Digital Health | Primary Care | Occupational Health and Safety | Healthcare and Medical Informatics | Personalized and Precision Medicine | Preventive Medicine and Diabetes | Preventive Medicine and Pediatrics | Preventive Medicines and Vaccinations | E-Health | Preventive Medicine and Geriatrics | Healthcare Statistics and Research | Healthcare and Patient Safety | Preventive Medicine and Community Health | Preventive Medicine and Internal Medicine | Women’s Health Gynecology | Healthcare and Midwifery | Preventive Medicine and Oncology | Preventive Medicine and Behavioral Health | Psychology and Psychiatric Disorders | Healthcare and Sociology | Preventive Medicine and Adolescent Medicine | Preventive Medicine and Sport Medicine | Preventive Medicine and Family Medicine | Healthcare and Tropical Disease

CONCURRENT EDUCATIONAL SESSIONS

THURSDAY
MARCH 30
2023

PREVENTIVE MEDICINE

- Epidemiology
- Psychiatric science
- Virology
- Osteoarthritis
- Asthma
- Microbiology
- Pathology
- Traditional Medicine

PUBLIC HEALTH AND HEALTHCARE

- Health care research
- Health information technology
- Health care financing
- Health care administration
- Environmental Health
- Behavioural Health
- Public Policy
- Mental Health
- Health Economics

HEALTHCARE, SERVICES AND TECHNOLOGIES

- Internet of Medical Things (IoMT)
- Healthcare and Information Technology
- 3D Animations in Health Care
- Imaging Informatics
- Prognostics in Telemedicine
- Telediagnosics
- Telemonitoring
- Broad band technologies in health care

HEALTHCARE INNOVATIONS

- AI & cognitive technologies
- Digital transformation
- Diversity & inclusion
- Innovation
- Next-generation sequencing
- 3D-printed devices
- Immunotherapy
- Artificial intelligence
- Point-of-care diagnostics
- Biosensors and tracker
- Telehealth

GROUP PHOTO | COFFEE BREAK

ADVANCED HEALTHCARE

- Telemedicine
- e- health
- Bioinformatics in Health Care System

DIGITAL HEALTH

- 3D animations in health care
- Telediagnosics
- Telemonitoring
- Broad band technologies in health care
- e- health

PRIMARY CARE

- Family Medicine Primary Care
- Primary Care Medicine
- Primary Care Pediatrics
- Aspects of Primary Health Care
- Dental Primary Care
- Community Health Services
- Primary Care to Prevent Infectious Diseases
- Immunization in Primary Care
- Palliative Care
- Primary Care Health Records

OCCUPATIONAL HEALTH AND SAFETY

- Occupational Health and Environmental Safety
- Occupational Medicine
- Occupational Psychology
- Occupational Physiotherapy
- Occupational Human Factors and Ergonomics
- Occupational Therapy
- Occupational Rehabilitation
- Occupational Disease and Human Health

LUNCH BREAK

HEALTHCARE AND MEDICAL INFORMATICS

- Health information exchange
- Human computer interfaces
- Health monitoring
- Population health management
- Pathology informatics
- Health care information and analytics

PERSONALIZED AND PRECISION MEDICINE

- Precision Medicine Initiative
- Advancing Precision Medicine
- Human genome
- Pioneering pharmacogenetics

PREVENTIVE MEDICINE AND DIABETES

- Type 1 diabetes
- Type 2 Diabetes
- Gestational diabetes
- Managing Diabetes
- Insulin, Medicines and Others Diabetes Treatments
- Diabetes Diet, Eating and Physical Activity
- Preventing Diabetes Problems

PREVENTIVE MEDICINE AND PEDIATRICS

- Child & Adolescent Obesity
- Bioethics in Child Health, Rights & Safety
- Preterm-Birth Complications & Intensive Care
- Pediatric Surgery
- Pediatric Vaccines & Immunization
- Pediatric Dermatology
- Pediatric Genetic Disorders & Rare Diseases

COFFEE BREAK

PREVENTIVE MEDICINES AND VACCINATIONS

- Vaccines against Infectious Diseases
- HIV Vaccines
- Cancer Vaccines
- Vaccines Safety and Efficiency
- Vaccine Adjuvants and Delivery Technologies

E-HEALTH

- Biotechnology in Health Care
- Telemedicine
- Health and Portal Technology
- Bioinformatics in Health Care System
- EMR and Health Informatics
- Clinical Patient Management System

PREVENTIVE MEDICINE AND GERIATRICS

- Geriatric Diseases
- Geriatric Medicine
- Geriatrics and Palliative Care
- Geriatrics and Orthogeriatrics
- Geriatrics and Geriatric Management
- Geriatrics and Case Studies
- Geriatrics and Geriatric Syndromes
- Geriatrics and Social Gerontology

CONCURRENT EDUCATIONAL SESSIONS

FRIDAY
MARCH 31
2023

HEALTHCARE AND PATIENT SAFETY

- Patient Safety and Health Policy
- Ethical and legal aspects of Patient Safety
- Errors in Patient Safety
- Risk Program Design and Implementation
- Collaboration to Improve Health Care Safety

PREVENTIVE MEDICINE AND COMMUNITY HEALTH

- Community Health Benefits
- Community Health Behavioural
- Community Health Care
- Community Health Dentist

PREVENTIVE MEDICINE AND INTERNAL MEDICINE

- Endocrinology
- Haematology
- Gastroenterology
- Medical oncology
- Pulmonary disease
- Rheumatology

WOMEN'S HEALTH GYNECOLOGY

- Genital tract infections
- Osteoporosis
- Urinary incontinence
- Uterine cancer
- Ovarian cancer
- Cervical cancer
- Vulvar and vaginal cancer
- Gynaecological endocrinology
- Reproductive and Sexual Health

GROUP PHOTO | COFFEE BREAK

HEALTHCARE AND MIDWIFERY

- Healthy Living
- Womens Health
- Neonatology
- Maternal and Child Health
- Women Oncology
- Breast Diseases
- Uterine Diseases
- Women Reproductive Cancer
- Midwifery Nursing Practice
- Reproductive Endocrinology
- Traditional Midwifery

PREVENTIVE MEDICINE AND ONCOLOGY

- Breast Cancer
- Lung Cancer
- Cancer Research
- Cancer Prevention
- Colorectal cancer
- Cervical Cancer
- Neurofibromatosis

PREVENTIVE MEDICINE AND BEHAVIORAL HEALTH

- Anxiety Disorders
- Attention Deficit Hyperactivity Disorder (ADHD, ADD)
- Autism Spectrum Disorders (ASD)
- Bipolar Disorder (Manic-Depressive Illness)
- Borderline Personality Disorder
- Depression
- Disruptive Mood Dysregulation Disorder

PSYCHOLOGY AND PSYCHIATRIC DISORDERS

- Assessment and evaluation of mental health effects
- Anxiety and sleep disorders
- Schizophrenia and nursing care
- Stress and emotional treatment studies and outcomes
- Cognitive behavioural therapy and family therapy in nursing
- Primary mental health care

LUNCH BREAK

HEALTHCARE AND SOCIOLOGY

- Access To Care
- Disabilities
- Government Programs And Policies
- Diseases
- Children's Health
- Mental Health
- Medical Research
- Medical Sociology And Medical Economics

PREVENTIVE MEDICINE AND ADOLESCENT MEDICINE

- Diabetes Type-1
- Asthma
- HIV
- Neurological problems
- Malnutrition and Obesity

PREVENTIVE MEDICINE AND SPORT MEDICINE

- Sports injuries, rehabilitation and injury prevention
- Exercise physiology, fitness testing and training
- Drugs in sport
- Exercise and health promotion
- Sport and exercise for special and clinical populations
- The psychology of performance and injury

PREVENTIVE MEDICINE AND FAMILY MEDICINE

- Adverse Drug Events Reporting
- Antibiotic Resistance
- Asthma
- Cardiovascular Risk Reduction
- Chronic Kidney Disease
- Depression
- Electronic Health Records
- Genomic Medicine
- Health Diversity
- Hypertension
- Immunization
- Menopause
- Migraine

COFFEE BREAK

HEALTHCARE AND TROPICAL DISEASE

- Tropical Diseases in Animals
- Tropical Medicine and Various other Medicine
- Clinical Tropical Medicine
- Neglected Tropical Diseases
- Tropical Biomedical Sciences
- Malaria
- Chagas disease
- yellow fever
- Dengue

PREVENTIVE MEDICINE AND PHARMACEUTICALS

- Antibiotics
- Antioxidant
- Bioremediation
- Chemotherapy
- Clinical Trials
- Research & Development in Drug Designing
- Drug Discovery
- Drug Interactions
- Drug Quality

PREVENTIVE MEDICINE AND INFECTIOUS DISEASE

- Causes and pathophysiology
- Clinical Studies
- Pharmaceutical Research
- Tropical Diseases
- Congenital Heart Disease
- Disease control
- Zoonosis
- Etiology
- Management of disorder

PREVENTIVE MEDICINE AND DENTISTRY

- Image acquisition: 3D radiographic imaging
- 3D digital image analysis
- Oral hygiene

Contact us: healthcare@thescholarshub.org

Featured Speakers

Presentation Titles

Chris Parsons

Pardee Hospital Center, USA

Feral Swine and Transmission of Brucella suis in the Southeastern United States

Una M. Rohr-Sendlmeier

University of Bonn, Germany

How to enhance competence, cognitive functions and well-being in employees aged 50+

Reuven Bar-On

Into Performance ULC, Canada

Assessing and Reducing the Risk for Burnout with the Bar-On Multifactor Measure of Performance

Carina Fiedeldej-Van Dijk

Into Performance ULC, Canada

**Who Looks After Us?
Preventive Care for Healthcare Provider Effectiveness With the Multifactor Measure of Performance**

Frans P. Houwen

Peracutus B.V., Netherlands

A new reliable and accurate volumetric device generating profiles of cross-sectional areas

Bruno Baumann

Heinrich-Heine-University Düsseldorf, Germany

Preventing Dementia by Preventing Risks

Linda A. Chernus

University of Cincinnati, USA

Through a Glass Darkly: A Clinical Journey

SPEAKER SLOTS AVAILABLE

Francis Reginald

Ali-Osman

Carondelet St. Joseph's Medical Center, USA

Outcome after surgical stabilization of rib fractures versus nonoperative treatment in patients with multiple rib fractures and moderate to severe traumatic brain injury (CWIS-TBI)

Mitzi S Brammer

Saint Louis University, USA

Physicians' Perceptions about Collaborating with Speech-Language Pathologists for Dysphagia Treatment in Interprofessional Healthcare

Yi-Hui Zhou

North Carolina State University, USA

Improve the Colorectal Cancer Diagnosis Using Gut Microbiome Data

Tahmineh Azizi

University of Wisconsin-Madison, USA

On the fractal geometry of gait dynamics in different neuro-degenerative diseases

Angela N. Buffenn

The Vision Center, Children's Hospital Los Angeles, USA

The Red Reflex Test: How Ocular Diagnoses and Examination Conditions Affect Interpretation

Kelley J. Donham

University of Iowa Iowa City, USA

Agricultural Medicine: Protecting the Health and Safety of Farm Workers who Produce Food, Fuel, and Fiber for the World

Gina Yu

Stanford University, USA

Training the Next Generation of Physician Communicators to Fight Health Misinformation

Claudia Marin

University of Bari Aldo Moro, Italy

The flashbulb-like nature of memory of the first Covid-19 case and the impact of emergency

Dorthe Schaffrin-Nabe

Praxis für Hamatologie und Onkologie, Germany

Rare and aggressive cancer types: NEBC and a new insight in individual treatment based on multiparametric tumour profiling

Eunice Kim

California State University Los Angeles, USA

Health Disparities among Burmese Diaspora: An integrative review

SPEAKER SLOTS AVAILABLE

Patrick Le

SPEAKER'S TESTIMONIALS

FUTURE OF PMPH 2022

<https://healthcare.peersalleyconferences.com/>

Testimonials

Angela N. Buffenn

University of Southern California, USA

The program had an excellent speakers from different parts of the world, who are experts in their field. The meeting definitely contributes to the professional development of all presenters. Peers Alley Media, Canada did a great job selecting speakers for the event. Thank you.

Steven Loh

Nanyang Technological University, Singapore

Let me first start off with congratulations to the team for organising this successful event!

The quality of talks is reasonably good with a mix of diversities, that in my opinion, benefits participants and audiences who come from various fields. This selection is in-line with current trend of cross discipline exploration and research collaborations.

For the reason above, I feel that this conference provided eye-opening experience and raised interesting ideas that may help in my work. Peers Alley Media, Canada did a remarkably good job and I wish to thank you all for your great effort.

Thank you for the great job once again, cheers to all!

Jessie Childs

University of South Australia, Australia

The conference was good and the quality was great.

Monica Benvenuto

University of Rome "Tor Vergata", Italy

Thank you for the wonderful opportunity!!

The conference was very interesting and the quality of the talk was very high. I have enjoyed the conference. It was a great experience to listen to the studies and thoughts of researchers all over the world.

Thanks to Peers Alley Media Canada for providing this platform to share my research with other researchers with diverse expertise in medicine.

Testimonials

Marina F. Gubkina

Central TB Research Institute, Russia

Thank you for the opportunity to share my knowledge with a broad audience.

I should note the high level of organization at each stage of the conference: accuracy and perfect coordination at the preparation stage, rapid access to all necessary information, high quality of conference materials (programme, collection of abstracts).

Multidisciplinary presentations and a wide range of represented countries has raised interest to the conference, allowed expanding scientific horizons and hoping that scientific collaboration between different countries for the health of humans will remain beyond political differences of the countries.

Aissetu Barry Ibrahima

Northeastern Illinois University, USA

Thank you so much for the acknowledgement and recognition.

It was a great conference. The diversity of speakers in every way has been enriching by itself. Great Work!

I wish I was able to attend it face to face. It would have been phenomenal!!!

Jorge Mandl Stangl

Ministerio Popular para la Salud, Venezuela

First of all, my sincere congratulations to the whole team for their organisational efforts, both in Canada and in London. I understand how difficult it is to organise and run such events, especially in difficult times like these.

As for the quality of the presentations: all were concise, clear, cohesive and on time.

Undoubtedly, the great expertise of the speakers and the diversity of topics covered, allowed us to increase the knowledge for our professional life.

I think the best was the diversity in the selection of participants. Normally such conferences end up with a program focused on medical care. This was not the case at Future of PMPH 2022, where the multi-diplinarity of public health was the north of the program. Another good thing that I think should be highlighted was the inclusion of the abstracts in the program information booklet, which allowed us to prepare our questions and doubts well in advance.

Testimonials

Roberto Sanchez

University of Concepcion, Chile

Personally, it has been very rewarding for me, especially when I am close to my retirement as an academic. Together with my wife we had a wonderful stay in London, at a very special stage of our lives.

The organization and team of Peers Alley Media, who assisted us, were very friendly and professional. My congratulations.

Peter Walton

Independent Researcher, UK

I presented a paper at the 2nd International Conference on the Future of Preventive Medicine and Public Health held in London in March 2022. The quality of the talks was outstanding, and the themes which were covered were wide-ranging. All the talks were of great interest.

The conference certainly contributes to professional formation and offers ample opportunity to meet and exchange ideas with others working in related fields.

Peers Alley Media organised the event with professionalism and competence. It was a pleasure to be able to attend.

Oliva Maria Eugenia

National University of Litoral, Argentina

The quality of talks are very interesting.

Christoph Lutge

TUM Institute for Ethics in Artificial Intelligence, Germany

It was a great conference!

Testimonials

Jungyoon Choi

Vanderbilt University Medical Center, USA

I'm quite satisfied with the quality of talks at PMPH 2022.

Despite all the difficulties, full assistance was given by the management and made me feel confident. And I enjoyed the meeting.

Although I participated in this conference via virtual meeting, the global connection encouraged me. Also, presenting and sharing opinions with global experts could contribute to my professional development. I really appreciate this opportunity.

Yes, I'm quite satisfied with talks and sharing ideas about public health in diverse topics from all over the world. Thank you so much!

I'm so honored to be invited to this PMPH, and grateful to be the recipient of this award.

I really enjoyed this conference and look forward to the future PMPH also! Thank you so much for all your support!

Supattra Changsuphan

Sukhothai Thammathirat Open University, Thailand

The conference achieved its objectives and was valuable to support healthcare professionals.

Overview, the knowledge can guide the idea to contribute to healthcare professionals' jobs.

Many topics are related to my field, and I can apply the idea to my job. For example, engagement of care for older adults and the care program for preventing and caring in the institute and community.

Peers Alley Media, Canada, did a great conference. The speakers have more experience related to their fields. That is nice to have speakers from any part of the world to share.

Testimonials

Yu-Ju (Julia) Huang

University of Houston, USA

First of all, I would like to address that this conference is a great event and provides a platform for people from public health and prevention medicine to share their research, clinical observations, and cases with people around the world. I did enjoy the participation and learned from other scholars.

The talks are good. I appreciate the conference committee arranged diverse topics to present. The facilitator did a great job in connecting the presentations.

I like the missions and purposes of the Future of PMPH. I strongly support and agree with them. I also believe the conference committee could create an international platform for people to discuss research and hot issues from the channel that has been created by your institute and develop their professional competence.

I suggest hosting professional continuing education workshops, seminars, or webinars may be very particular months. Therefore, more people will be aware of your institute and hope there will be more people to participate in the annual conference.

The Peers Alley Media Canada did an excellent job arranging speakers and topics for the sessions. It is very challenging to organize the people worldwide and set their presentations at times suitable for them. I appreciate that my presentation time was arranged at noon in my local time. My energy was great to present.

I look forward to participating in future events with your institution.

It has been my honor to be invited to present at the conference.

Thank you very much for your coordination of the event and for supporting my presentation throughout the whole process.

I look forward to participating in the conference again or events with your institute in the near future.

Mahmoud Rokaya

Taif University, Saudi Arabia

They were excellent however the diversity was extreme considering my domain and the domain of most talks were from medicine and related fields.

It is very far from my own topic, however listening to people from outside the domain might give very excellent ideas to go ahead.

No comment, all are excellent in their domain. Very good achievement.

Qinwei Fu

Chengdu University of Traditional Chinese Medicine, China

Many thanks for your invitation and ask. It's my first time to attend international conference, and I think the Future of PMPH 2022 is perfect.

To be honest, it's good for me, which provided me with knowledge of new advances.

Testimonials

Joana Filipa Barbosa Teixeira

REQUIMTE-LAQV-Instituto Superior de Engenharia do Instituto Politecnico do Porto, Portugal

PMPH2022 combined renowned researchers, scientists and students to exchange ideas, to present sophisticated research works and to discuss hot topics and share their experiences on all aspects of Preventive Medicine and Public Health. This conference presented a wide variety program consisting of lectures covering all topics in Preventive Medicine and Public Health.

This event aimed to attract global participants promoting the sharing, exchanging and exploring of new developments of Preventive Medicine and Public Health. Moreover, the conference offers a valuable platform to create new contacts in this field, by providing valuable networking time for the participants to exchange contacts.

The lectures presented different appealing subjects that motivated the audience for a beneficial discussion with the speaker.

Hope to see you next year!

Nu Quy Linh Tran

Griffith University, Australia

I only joined two half days of the conference. In my opinion, the virtual conference was organized well, on time, and follow the timetable. The speakers came from different fields and they had shared many interesting topics. The speakers had well prepared their slides and had great speaking.

I had opportunities to listen to many hot and interesting topics, especially in economic, health, and social recovery after the Covid-19 pandemic. After the conference, I have some ideas for my future research ideas.

The speakers were well selected and they are experts in their fields. They had great presentations.

Thank you for your support and hope to see you at the 2023 conference.

Xiaolei Liu

West China Hospital, Sichuan University, China

The quality of talks at Future of PMPH 2022 are good. Got some experience in the conference sharing. Peers Alley Media, Canada, did a good job.

Testimonials

Kathy Shum

The University of Hong Kong, China

Thank you for coordinating the conference. The logistics arrangements were well managed.

Gunjan Bahuguna

All India Institute of Medical Science, India

Thank you so much for inviting me as a speaker at the 2nd International Conference on Future of Preventive Medicine and Public Health 2022.

The quality of the talks was extremely good, than you for this academic fest.

I definitely look forward to it in the future and pass is on to my colleagues as well. Thank you so much and many congratulations for making it a great success.

Avinash Hanbe Rajanna

Rajiv Gandhi University of Health and Sciences (RGUHS), India

The selected talks where excellent.

Sonika Sangra

GMC Kathua, India

The quality of talks were very interesting and learned a lot.

This kind of conference with sharing platform at international level leads to the professional enhancement at every level. Peers Alley Media done an excellent job.

Testimonials

Ashraf Mansour

University of Al Fashir, Sudan

The quality of the conference is excellent because I learned new knowledge from different aspects of medicine.

Deepa Selvi Rani

CSIR-Centre for Cellular and Molecular Biology, India

The quality of talks at Future of PMPH 2022 are very good.

Very good.

Mahla Daliri B.O

Mashhad University of Medical Sciences, Iran

Thank you so much for holding this great event.

Almost all presentations were high quality talks.

I have learned a lot about different aspects and vast range of health activities and research in preventive medicine and public health.

Anna Seitero

Linkoping University, Sweden

Thank you, the conference gave me an opportunity to present my research and practice and develop skills. This was my first international conference and in my opinion, the quality of the presentations was good and I enjoyed to listening to the presentations.

Testimonials

Zdzislaw Kieliszek

University of Warmia and Mazury
in Olsztyn, Poland

Very high. All the papers were very interesting
and the topics raised were topical.

Maria Velana

Dortmund University of Technology,
Germany

“It is an honour to be invited to participate in the international conference Future of PMPH 2022 and I was delighted to be there. The quality of talks and above all, the human qualities of the researchers who introduced their studies and shared their experiences with the audience, contributed to the success of this event. Furthermore, the commitment and the efficiency of the organization committee was really exceptional, as they were always ready to help the participants with any issue they encountered. Overall, it was a very positive experience and I look forward to the next event.”

Thanks again for hosting this wonderful conference!

Testimonials

Nana Amma Acheampong

University of Maryland Global Campus, USA

Thanks for your email. I wish to extend my sincerest gratitude to you and your team for the opportunity to participate in the conference. Indeed, you put together a successful conference and the presentations were stimulating. The host did an excellent job and I commend him for his professionalism and patience.

Neetu Talreja

University of Concepcion, Chile

It was very nice to participate in the conference. The quality of the talks was nice and nice to gain the knowledge of research from other international participants. I love to share my knowledge with other researchers and also love to know the research of others that's why I love conferences a lot. Nevertheless, it gives me knowledge about recent progress in infectious disease. It was a good selection of speaker from the international research community. I am happy with this.

Rebecca Pratiti

McLaren Health Care, USA

The conference had a broad range of public health topics that were discussed by speakers from varied settings including clinicians, epidemiologists, economists, etc. Hence it gave exposure to different public health problems from different countries. Thanks for your time and kind consideration.

Hemant Thakur

V.A. Medical Center, USA

The speakers came from diverse background from different countries and it was important to hear what is going on in other countries and problems they are researching. Researchers were doing research in diverse area which can be valuable to preventive care in future. Peers Alley Media did chose thought provoking diverse speakers.

Testimonials

Ana Claudia Trocoli Torrecilhas

Federal University of Sao Paulo (UNIFESP), Brazil

The quality of talks at Future of PMPH 2021 is very high quality. The presentation are diverse. Peers Alley Media, Canada did an excellent job in selecting speakers.

Kristen M Agena

A.T. Still University of Health Sciences, USA

I thought the talks were very good with a great range of topics. However, due to the extreme range of content, I felt that only about half of those that I watched covered content beneficial to my professional endeavors. The conference staff did a good job.

I enjoyed being a part of the conference and appreciate the opportunity to present on my paper.

Dorit Avni

MIGAL - Galilee Research Institute, Israel

The event was extremely well organized, not only at the event itself but before as well. It was handled professionally on your side and conducted fluently. Regarding the speakers, as these kind of events are the places we can contact new researchers for future collaboration. Many thanks for invited me, I have enjoyed the event.

Nazia Mumtaz

Riphah International University, Pakistan

Thanks for your email.

The quality of talks at Future of PMPH 2021 are good. I joined twice during the event & saw participants from different countries. Some of the content was really up to mark. The topics selected were well thought and delivered.

Testimonials

Patrizia Guidi

University of Pisa, Italy

The presentations were of good quality. Not all presentations dealt with topics close to my interests, however most of them were interesting to me. However this could in establishing contacts for international projects, I hope! The selection work was good even if the sequence of relations was not always consistent, perhaps due to the different time zones.

Marta Madalena Marques de Oliveira

Instituto Politécnico do Porto, Portugal

The quality of the talks were good and covered a wide range of topics. I enjoyed the conference because I could learn new approaches presented by other researchers and I could also make new contacts. Participation at this conference allowed me to know complementary research areas, learn about them and plan some future collaborations.

Adrian Lopez Alba

12 de Octubre University Hospital, Spain

I think that there was a high quality congress. The experience was a great. I really enjoyed the conferences and I learn a lot. I think that the congress will help positively for my personal development. I think that Peers Alley Media did a great job. I hope that there will be a new Future of PMPH on 2022.

Maher Khader Mustafa

Queen Rania Children Hospital,
Royal Medical Services, Jordan

Thank you a lot for this respectable conference. It seems to me that the quality of talks was very good. I enjoyed and loved the meeting. I guess it will be helpful in my work. Also I believe that Peers Alley Media, Canada did great job.

Testimonials

Muhammad Hanif

Hayatabad Medical Complex, Pakistan

The quality of talk was amazing and speaker presented their topic in a great and professional manner. I really enjoyed every minute of it. I am really thankful to you because this presentation will help me a lot in future. This conference help me to learn from highly professional speakers that how to present your work. I really appreciate the job of your organization and indeed the host was very humble. I am looking forward to work with you in near future. Thank you very much.

Rajan Ghimire

District Hospital, Nepal

It was really a wonderful experience for me and I must say that organizational part was also excellent despite ongoing pandemic.

Nana Amma Acheampong

University of Maryland Global Campus, USA

What a great event and an impressive quality of talks at Future of PMPH 2021. Kudos to the host of the two-day conference whose adroitness in managing presenters' speaking time and the minor technological glitches that popped up, did a whole lot of good to enhance the quality of talks during the sessions. More so, the talks offered a unique array of presentations based on meaningful content that highlighted the problems and solutions for public health.

Hassan Vatandoost

Tehran University of Medical Sciences, Iran

The conference was conducted excellent. I enjoyed and learned too much. We had some discussion with presenters and wish to have bilateral collaboration with them in the future. All the answers of questions is excellent.

Testimonials

Saima Ejaz

Department of Physiology, University of Karachi, Pakistan

The quality of talks at Future of PMPH 2021 was great. It was good experience listening from experienced doc and professor. Yes, it helped to communicate internationally. Peers Alley Media did a great job in making this event successful.

Huan-Huan Wei

Chinese Academy of Sciences, China

Peers Alley Media did great job in organizing the meeting, including the design of the conference book and arrange of the speakers.

Amir Hossein Mahvi

Tehran University of Medical Sciences, Iran

I have to seen that the level of the conference was high scientific and it was very useful for my future researches and teaching. I appreciate so much the work done to conduct such very excellent webinar. I hope to cooperate in future.

Diah Indriani

Universitas Airlangga, Indonesia

This was an awesome conference with a lot of speakers which gave a lot of great research. Peers Alley Media has been very good at managing speakers. Thank you for organizing this conference very well. Thank you.

Testimonials

Muhammad Ahmad Alamgir

Bahawal Victoria Hospital / QAMC
Bahawalpur, Pakistan

I hereby express gratitude and appraisal to the Future of PMPH and peers alley media for holding an international conference. All the speakers had innovative and intellectual talks. This conference has been a platform for transformation of academic knowledge for the health care professionals and the public as well. I also appreciate the best services of program director and other concerned persons.

Ralph Udeh

University of Newcastle, Australia

It was a great pleasure to attend that conference. Thanks once again.

Shrabanti Maity

Vidyasagar University, India

It was a great experience. Hope in future will get such wonderful chance.

Testimonials

Subhrajit Mukherjee

Indian Institute of Technology Kharagpur, India

It was really a great experience to be a part of such a wonderful international conference, The Future of PMPH 2021. I consider myself very minimal in front of such high impactful & notable jury of people invited as honorable speaker. The vast quality and distributed field of eminent researchers were the main source of inspiration for the spectators or audiences. I think this actually helped everyone to gather huge knowledge unknown & interesting facts during this pandemic situation. I feel this level of conferences should be taken forward for the betterment of mankind as well as society. Moreover, it will actually help all of us to relate our own research with medical or healthcare field. I personally appreciate the huge level of support & coordination from your entire PMPH team management. PMPH service should be applauded in all formats. Really great work done during such tough times. It was a great pleasure to contribute minimum from my end. I am also interested and looking forward to attend such conferences by the Peers Alley Media in the upcoming days. Thanking you.

Nana Amma Acheampong

University of Maryland Global Campus, USA

The two-day conference has been truly beneficial and a great learning experience for me. Thanks to this conference, I can confidently add public speaking to my list of skills. I learned a lot from listening to the engaging and extremely insightful presentations from seasoned researchers and practitioners in the medical and other related fields. I believe the best practices I learned from the competent line up of speakers would help me a great deal in my professional life. Most importantly, the conference offers remarkable opportunities to network and collaborate with other researchers in the future. Peers Alley Media did not disappoint with an impressive line-up of competent and dynamic speakers whose presentations were not only of high quality but also contributed to the advancement of the research on public health.
