

5TH INTERNATIONAL CONFERENCE ON

FUTURE OF PREVENTIVE

MEDICINE AND PUBLIC

HEALTH

MARCH 20-21, 2025 | LONDON, UK

Theme:

"Transforming Health Systems through Innovation and Integration: Uniting Research, Technology, and Clinical Practices to Deliver Personalized, Affordable, and Sustainable Healthcare"

Sub Theme:

- Global Health Security and Pandemic Preparedness
- Advances in Personalized and Preventive Medicine
- Integration of Digital Health Technologies in Preventive Medicine
- Behavioral Interventions and Lifestyle Modifications
- Innovations in Nursing Practice and Patient Care
- Advancements in Vaccination and Immunization Strategies
- Workplace Health and Wellness Programs
- Patient Education and Self-Management
- Mental Health and Preventive Strategies
- Climate Change and Public Health: Impacts and Adaptation
- Addressing Health Inequities and Enhancing Access to Preventive Services
- Data-Driven Approaches to Preventive Medicine

FUTURE OF PMPH 2025

<https://healthcare.peersalleyconferences.com/>

WHO SHOULD ATTEND?

Healthcare Professionals

- Physicians
- Nurses
- Pharmacists
- Dentists
- Surgeons
- Allied health professionals (e.g., physical therapists, occupational therapists)

Healthcare Administrators and Executives

- Hospital and clinic administrators
- Chief Executive Officers (CEOs)
- Chief Financial Officers (CFOs)
- Chief Operating Officers (COOs)
- Chief Medical Officers (CMOs)

Medical Researchers and Scientists

- Biomedical researchers
- Clinical researchers
- Laboratory scientists
- Epidemiologists

Public Health Professionals:

- Public health officers
- Epidemiologists
- Health policy makers
- Community health workers

Medical Educators

- Medical school faculty
- Continuing medical education (CME) providers
- Health education specialists

Pharmaceutical and Biotechnology Professionals

Medical Device and Technology Developers

Health IT Professionals

Insurance and Healthcare Finance Professionals

Government and Policy Makers

Patient Advocacy Groups and Non-profit Organizations

Medical Students and Trainees

Healthcare Consultants

Investors and Venture Capitalists

WENDY WOLFERSTEIG

Southwest Interdisciplinary Research Center
Arizona State University, Phoenix, Arizona, USA

Dear Colleagues,

It is my pleasure on behalf of the organizing committee to invite you to the **5th International Conference on the Future of Preventive Medicine and Public Health** which takes place **March 20 and 21, 2025**, in **London, UK**. The PMPH conference addresses important issues and innovations in healthcare relevant to distinguished scientists, scholars, business professionals, industries, faculty, institutions, and students from around the world. This sharing of leading-edge preventative measures in healthcare and medicine has benefits for attendees and for all of healthcare and medicine.

During our two-day conference in 2024, many technological advances and scientific innovations were discussed by a wide range of professionals. These presentations and discussions were invigorating, prompting new insights and collaborations. The conference format and pace of the speaker and breakout sessions allowed time for small group discussion and follow-up which fostered additional exchange of knowledge. It was invaluable to be among a group of worldwide scholars across the allied health professions with a shared sense of purpose and camaraderie.

I would encourage you to consider this opportunity to join and learn from the distinguished speakers participating in the Future of PMPH 2025 conference.

GOODSON DZENGA (PHD., BCBA)

University of Montana Western
710 S Atlantic St, Dillon, MT 59725,
United States of America

Dear Esteemed Guests,

On behalf of the organizing committee, it is with great pleasure that we extend a warm welcome to all the distinguished scientists, scholars, business professionals, industries, faculty, institutions, and students from around the globe. We are delighted to invite you to the **5th International Conference on the Future of Preventive Medicine and Public Health**, set to take place in the vibrant city of **London, UK**, from **March 20th to March 21st, 2025**.

As we stand on the cusp of a new era in healthcare, propelled by remarkable technological advancements, the promise of the future is palpable. From cutting-edge digital health solutions to wearable technologies, artificial intelligence, virtual reality/augmented reality, 3D printing, robotics, and nanotechnology, innovations are reshaping healthcare systems at an unprecedented pace. In this transformative landscape, the empowerment of patients and the role of allied health professionals are paramount. Keeping abreast of the latest technological developments is essential to harnessing their potential effectively. Therefore, our conference serves as a vital platform for knowledge dissemination, fostering stimulating discussions, and facilitating collaborations that can drive positive change.

One aspect that we wish to underscore is the importance of networking in improving the quality of life for all stakeholders involved – be it clients, students, researchers, or industry professionals. Networking enables the exchange of ideas, best practices, and experiences, leading to innovative solutions and advancements in preventive medicine and public health. Throughout the two days of our conference, we aim to showcase cutting-edge information, highlight scientific breakthroughs, and celebrate milestones in healthcare and medicine. Your participation and expertise are invaluable in shaping the discourse and charting the course for the future of healthcare.

We extend our heartfelt gratitude to each of you for lending your voices to this vital conversation. Together, let us endeavor to address the dynamic challenges that lie ahead and work towards the development of novel solutions that will benefit humanity. We eagerly anticipate welcoming you to the vibrant city of London in 2025, where we will embark on a journey of discovery, collaboration, and innovation.

PRESENTATION FORUM

**i**

KEYNOTE FORUM / MINI-PLenary SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

**i**

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

**i**

STUDENT FORUM

POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

**i**

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

i**EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/
CORPORATE WORKSHOPS/MINI- SYMPOSIA**

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

i**HIGHLIGHTS OF THE DAY SESSIONS**

“Highlights of the Day Sessions” is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

i**MEET THE PROFESSOR @ NETWORKING SESSIONS**

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

i**EDUCATIONAL SESSIONS/ TRAINING PROGRAMS**

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

CONCURRENT EDUCATIONAL SESSIONS

THURSDAY - MARCH 20, 2025

- Preventive Medicine
- Public Health and Healthcare

- Healthcare, Services and Technologies
- Healthcare Innovations

GROUP PHOTO | COFFEE BREAK

- Advanced healthcare
- Digital Health

- Primary Care
- Occupational Health and Safety
- Healthcare and Medical Informatics

LUNCH BREAK

- Personalized and Precision Medicine
- Preventive Medicine and Diabetes

- Preventive Medicine and Pediatrics
- E-Health

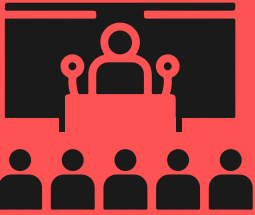

COFFEE BREAK

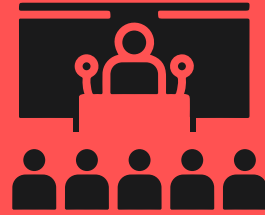

- Preventive Medicine and Geriatrics

- Healthcare Statistics and Research

CONCURRENT EDUCATIONAL SESSIONS

FRIDAY - MARCH 21, 2025

- Healthcare and Patient Safety
- Preventive Medicine and Community Health

- Preventive Medicine and Internal Medicine
- Women's Health Gynecology

GROUP PHOTO | COFFEE BREAK

- Healthcare and Midwifery
- Preventive Medicine and Oncology

- Preventive Medicine and Behavioral Health
- Psychology and Psychiatric Disorders

LUNCH BREAK

- Optics
- Metals and Alloys
- Bioinspired materials and Systems
- Mineralogy

- Perovskites
- Materials Informatics
- Selective Laser Sintering
- Metamaterials
- Dichalcogenides

COFFEE BREAK

- Healthcare and Sociology
- Preventive Medicine and Adolescent Medicine

- Preventive Medicine and Sport Medicine
- Preventive Medicine and Family Medicine

5TH INTERNATIONAL CONFERENCE ON FUTURE OF PREVENTIVE MEDICINE AND PUBLIC HEALTH

MARCH 20-21, 2025
LONDON, UK

<https://healthcare.peersalleyconferences.com/>

Featured Speakers

Marcia Dinkins

Black Appalachian Coalition (BLAC), USA

Maggie Inrig

Stepped Care Solutions, Canada

Bankole Johnson

Larkin University, USA

Adriana Haimovitz-Friedman

Memorial Sloan Kettering Cancer Center, USA

John Draper

Behavioral Health Link, Inc.,

Stephen E. Lupe

Cleveland Clinic, USA

Justin Z. Laferrier

Johnson & Wales University, USA

Joseph Tramontana

Private Practice in Louisiana and Mississippi,
USA

Presentation Titles

Echoes of the Hills: Challenging Exclusion through Black Storytelling in Appalachian Health and Policy

Wellness Together Canada: Digital Implementation of the Stepped Care 2.0©Model for Population Mental Health

Stem Cells and Cell Factors: Paving the Way for Future Breakthroughs in Parkinson's Disease Treatment

Radiation-induced gastrointestinal (GI) syndrome as a function of age

U.S. 988 "Care Traffic Control" Technologies in Public Behavioral Health Systems: Driving Performance Outcomes That Matter

First Evidence of an AI-Enhanced Digital Comprehensive Care Model on Health Outcomes of IBS Patients

Development of a Durable, Load Variable, Energy Storage and Return Prosthetic Foot for Low Resource Countries

Hypnotically Enhanced Future Projection Therapy: Strategies and Case Examples

SPEAKER SLOTS AVAILABLE

.....

Elizabeth Francis
Duke University, USA

Implementing a Substance Use Disorder Screening Tool and Referral Process in the Emergency Department

.....

Everett L. Worthington Jr.
Virginia Commonwealth University, USA

Young African Men and Suicide: Probing Masculinities and Promoting Mental Health in Post-colonial Africa

.....

Kudzai Biri
Hope College, USA

Impact of the Affordable Care Act on participation in the Supplemental Nutrition Assistance Program among low-income older Medicare beneficiaries

.....

Mónica A. Galeano
Garrahan Hospital, Argentina

The role of imaging in the diagnosis of three endemic diseases of the Southern Cone Leishmaniasis, Dengue, and Chikungunya

.....

David F Fray
UT Health Houston, USA

An interdisciplinary approach to improving access to dental care for adults with intellectual/developmental disabilities

.....

Jacob Marvin
Ohio Northern University, USA

Financial, Occupational and Physical Challenges and Blood Glucose Monitoring in Type 2 Diabetes

.....

Nikki Kiyimba
Matai Rongo, New Zealand

Developing Relational Consciousness in Preventative Healthcare

.....

Goodson Chaidamoyo Dzenga
University of Montana Western, USA

Preparing Elementary Teachers to Support Inclusive Education for Students with Autism Spectrum Disorder: Highlighting the INCLUDE Program Planning Model

.....

Tahmineh Azizi
University of Wisconsin-Madison, USA

Application of Discrete Wavelet Transform and Spectral Entropy in Epileptic Seizure Detection

.....

Wisal Mustafa Hassan Ahmed
University of Washington, USA

Evaluating the long-term impact of large-scale trainings on female genital mutilation related knowledge, attitudes, and practices among Sudanese midwives in Khartoum State

SPEAKER SLOTS AVAILABLE

Gulsen Meral
Southern Cross University, Australia

The Importance of the Nutrigenetic analysis and epigenetic clock in longevity Anti –Aging processes

Brenda Hanley
Cornell University, USA

Using Machine Learning to Predict Emergence of Disease in Free-Ranging Wildlife to Aid Public Health Efforts

Nimród Mike
Corvinus University of Budapest, Hungary

Legal and Compliance Implications for AI Systems Using Medical Data under the EU AI Act

Amirah R. Nelson
Jackson State University, USA

Honoring the Impact of Racial Trauma and Marginalization Stress in Trauma-Informed Ethical Decision Making

Piper Hutson

SPEAKER'S TESTIMONIALS

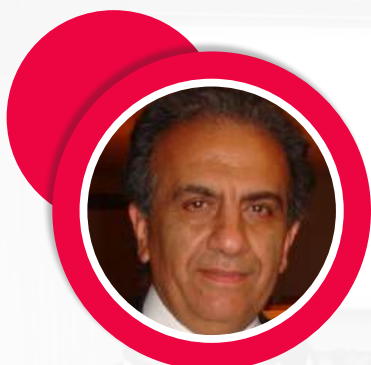

AMSTERDAM

MARCH 18-19, 2024

FUTURE OF PMPH 2024

<https://healthcare.peersalleyconferences.com/>

TESTIMONIALS

I want to congratulate both of you for organizing and supervising this great meeting in Amsterdam in March 2024.

The variety of talks and the rich interactions between the speakers made the Future of PMPH 2024 meeting very interesting and informative.

HASSAN M. HESHMATI

ENDOCRINOLOGY METABOLISM CONSULTING, LLC, USA

Thank you for your invitation, I had a lovely time in Amsterdam and appreciated the opportunity to share my research with such a diverse group at Future of PMPH 2024.

JORDAN PERCHIK

UNIVERSITY OF ALABAMA AT BIRMINGHAM, USA

I thoroughly enjoyed each of the talks at Future of PMPH 2024. It was deeply inspiring to me to learn about the variety of scientific topics, the professional's demonstrated success, humility, and curiosity in their field, and how each topic holds incredible potential to positively impact public health across the globe.

Peers Alley Media, Canada did a great job selecting speakers from across the globe for thought-provoking sessions on the future of preventative medicine and public health. I was deeply humbled to have been invited to represent my field among all these amazing and brilliant scientists. It was immediately clear to me that if the threads of science presented at this conference take hold, each can and will revolutionize the future of public health for the global good of all.

BRENDA J. HANLEY

WILDLIFE HEALTH LAB, CORNELL UNIVERSITY, USA

TESTIMONIALS

Thank you very much for your kind words and for extending your gratitude regarding my presentation at the Future of PMPH 2024 event hosted by Peers Alley Media, Canada.

I am truly honored to receive the Certificate of Recognition from your esteemed organization. It means a lot to me to be recognized for my contribution to the event.

Once again, thank you for this recognition, and I look forward to future collaborations.

GOODSON CHAIDAMOYO DZENGA

UNIVERSITY OF MONTANA WESTERN, USA

The Future of PMPH 2024 was really well organized. Everyone knew where to go, everyone was very friendly from the organization! Some presentation had more value than I have anticipated beforehand. The small amount of people also made it possible to connect better with each other, which was really nice.

The speakers were very nice and well prepared! Thank you!

VANESSA B. BASTEK

KLINIKUM REGION HANNOVER PSYCHIATRIE WUNSTORF, GERMANY

The quality of talks was really good at Future of PMPH 2024! Everybody had very interesting topic and presentations were inspiring.

I am very impressed by the variety of topics presented. Despite the fact that I am not a medical professional myself, I felt that the presentations were very varied for listeners from other disciplines. You had definitely chosen really good speakers.

SIRPA M. MANNINEN

UNIVERSITY OF EASTERN FINLAND, FINLAND

I wanted to take a moment to provide some feedback on my experience as an online invited speaker at the recent Future of PMPH 2024. Overall, I am grateful for the opportunity to participate and share my insights with the audience.

I want to express my appreciation for the opportunity to be part of Future of PMPH 2024. I thoroughly enjoyed sharing my insights and connecting with the audience, albeit virtually.

Once again, thank you for inviting me to be a part of the conference. Please feel free to reach out if you have any questions or if there are any further opportunities for collaboration in the future.

SURANI MATHARAARACHCHI

UNIVERSITY OF MANITOBA, CANADA

The 4th International Conference on Future of Preventive Medicine and Public held on March 18-19, 2024 in Amsterdam, Netherlands was a great event. In addition to meeting a large number of eminent speakers from all over the world, we also had the opportunity to exchange experiences. The organization of this top event was excellent, which is the result of the great professionalism of the organizers. It was an honor to be a part of this event and I would love to participate again, as a speaker, moderator or in some other role. With all respect

MIRZA KOVACEVIC

CANTONAL HOSPITAL, ZENICA, BOSNIA AND HERZEGOVINA

Congratulations on the organization of Future of PMPH 2024, a lot of serious work! All topics were qualitative and important. The studies held by the lecturers gave us knowledge to include in the curricula of our students. I think that Peers Alley Media successfully accomplished its mission.

YLLKA STRAMARKO

UNIVERSITY OF VLORE "ISMAIL QEMALI", ALBANIA

I truly thanks to Peers Alley Media for the opportunity to present my research and contributions in the field of mental health prevention. I wish you succeed on the upcoming conferences of Future of PMPH.

The quality of the talks was excellent at Future of PMPH 2024. The material presented by each speaker showed time and commitment in their preparation.

Being able to appreciate step by step the methodologies used by other experts in areas complementary to mine and the contribution to health prevention from different perspectives, allowed me to place my research and contributions globally and consider new approaches from a new perspective.

Absolutely, the most interesting thing for me was having the opportunity to appreciate the work that is done around the world to preventive health from different perspectives, from different fields in which we normally approach only through the media and in which the information is summarized.

EDITH SÁNCHEZ-JARAMILLO

INSTITUTO NACIONAL DE PSIQUIATRÍA RAMÓN DE LA FUENTE MUÑIZ, MÉXICO

It is a pleasure for me to give the feedback for the conference. The quality of talks at Future of PMPH 2024 were of outstanding quality and the presenters were very professional. The topics covered actual trends of healthcare and medicine and the future of Public health was easily evidenced from the implications of the presentations. I have learned a lot and have inspired me for future projects and collaborations.

I think that the contribution will be at a great scale, starting from the expansion of the network, following the rise of autostem and the update with the latest trends in the medicine and healthcare research carried out by distinguished researchers and academics.

The Peers Alley Media did a great job in selecting the speakers, the topics and in the organization of the overall event.

FATJONA KAMBERI

UNIVERSITY OF VLORE "ISMAIL QEMALI", ALBANIA

I am very happy that I had the opportunity to participate in the 4th International Conference on the Future of Preventive Medicine and Public Health (The Future of PMPH 2024).

The quality of talks in the Future of MPPH 2024 was of a very good level. This was shown by the participating professionals who manage to refer to very good quality topics, in accordance with the theme of the Conference. The implementation of interactive questions between the participants based on the topics certainly makes the session diverse and very interesting.

This International Conference will affect my professional development. Being a member of the Scientific Research Center at the Faculty of Health, I appreciate the methodology of scientific research in these topics.

Peers Alley Media, Canada did a good job in selecting speakers for thought provoking sessions for this event.

A professional job on their part.

Thank you for everything!

GLODIANA SINANAJ

*UNIVERSITY OF VLORE "ISMAIL QEMALI", ALBANIA
FUENTE MUÑIZ, MÉXICO*

The quality of talks at the Future of PMPH 2024 was at a very high level, there were many new, relevant knowledge and important aspects of clinical practice.

As for the impact on my professional development, I can say that the topics covered in the conference were all very important not only for clinical practice as a general practitioner, but also for the academic part where I am an active part. The topics were in line with the latest developments in science and technology and will be implemented over time in work practice.

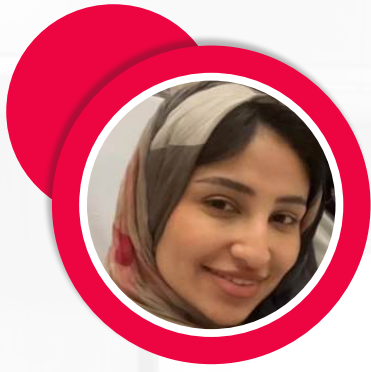

I think Peers Alley Media made it a point to get the job done! The selection of topics and speakers at the conference were chosen very carefully and each presentation was quite interesting and aroused curiosity among the people in the auditorium.

A very serious and prestigious job that deserves to be congratulated and appreciated.

JERINA JAHO

UNIVERSITY OF VLORE "ISMAIL QEMALI", ALBANIA

Everything was well organized for Future of PMPH 2024.
I made very good networking.
The sessions were informative with diversity of respectful speakers.

ALAA NABIL MAHSOON

KING ABDULAZIZ UNIVERSITY, SAUDI ARABIA

Good conference (Future of PMPH 2024) covering all fields.

YAMENG LIU

*TIANJIN UNIVERSITY OF TRADITIONAL CHINESE MEDICINE,
CHINA*

The quality of talks at Future of PMPH 2024 are all good
It will contribute to my professional development.
Peers Alley Media, Canada did a good job.

RUI ZHANG

PEKING UNIVERSITY FIRST HOSPITAL, CHINA

I really enjoyed this conference Future of PMPH 2024. Your teams are great!

Your teams organized this special conference that got together the experts from different interdisciplinary fields.

I will pass this information to my colleagues and I hope I can attend the conference that will be held in London in 2025.

Thank you again.

JIH-HUAH WU

MING CHUAN UNIVERSITY, TAIWAN

Greetings. I sincerely appreciate your team for the wonderful experience in the conference in Amsterdam.

It was my first to join PMPH 2024 and I am glad I learned a lot from speakers. The quality of the talks and presentations were excellent. All speakers showed novel and interesting research findings from sports to patient care and even molecular and mental health sciences. Aside from the diversity in topics, the event also highlights presenters from difference countries which also shows inclusivity and recent updated about the global scholars' interests and that of their nations.

As a nurse researcher and leader, I gained new insights of possible topics which we can explore in our facility. Certain topics like ostracism, HPV vaccine screening approach, and hypnotic therapies were interesting to me and I had a chance to network with the speakers.

The Peers Alley Media Canada did a good job in accommodating us. I personally have a great time in Amsterdam because of the wonderful accommodation. The venue was perfect and conducive for us. We were in constant communication with the staff and they were so nice in attending to our needs. The conference materials were also nice and readily available for everyone.

The best experience in this conference is that we can confidently discuss matters about the topics presented. Certainly because the presentations were interesting and well-presented. There are 3-5 clarifications raised whenever a presentation is completed. It marks how the fellow speakers became interested about the topics.

Overall, I am so glad I joined the conference. I am writing a news article about it so I can post in our facility's newsletter and corporate's website. Thanks Peers Alley Media for the invitation and great experience.

JOHN PAUL BEN SILANG

DIRECTOR OF NURSING RESEARCH, HAMAD MEDICAL CORPORATION, QATAR

I also would like to thank Peers Alley Media for the great coordination of the conference. I had enjoyed my time there as well as I learned about multiple new aspects to me. Especially, the ones related to AI field.

In addition, the speaker were selected rightly and their talks was beneficial.

Thank you once again Peers Alley Media and keep it up.

DOAA MAHMOUD EISA SABIR

HAMAD MEDICAL CORPORATION, QATAR

First of all, thank you for this nice meeting.

The Future of PMPH, I think the quality of the talks in 2024 is very good.

I can say that it contributed to my professional development.

I think Canada's Peers Alley Media made a good choice in selecting the speakers for this event's thought-provoking sessions.

ILGAZ AKDOGAN

AYDIN ADNAN MENDERES UNIVERSITY, TURKEY

I would like to thank you for the Future of PMPH 2024. It is obvious that a lot of effort has been put into it.

Everyone made speeches in their own field of expertise. There was an incredible variety of topics. Of course, the efforts spent for a research cannot fit into a 20-minute speech, but it was clear that the speeches I listened to were made by experts in their fields.

The Canadian team has done a very comprehensive work for this conference. I especially congratulate them on this.

ELIF KAYAALP ATA

GEBZE TECHNICAL UNIVERSITY, TURKEY

I'm grateful for the opportunity to attend the Future of PMPH 2024 Conference, where professionals engaged in discussions on the latest healthcare research. The diverse topics with speakers from around the world provided valuable insights and improved my understanding of the field. The organizer provided excellent management, and it was a great experience, with smooth communication during the talks. Overall, my experience was great, and I am glad to join future events organized by your team.

ZAHRA SHAMS KHOOZANI

UNIVERSITI MALAYA, MALAYSIA

The quality of talks at Future of PMPH 2024 were good and contributed to new knowledge.

I think some of the topics and discussion contributed to professional development.

Peers Alley media has been doing a great job by creating opportunities for researchers and innovators to meet together and share their findings, networking and developing international links and collaborations.

SUDATH WARNAKULASURIYA

UNIVERSITY OF COLOMBO, SRI LANKA

The quality of talks at Future of PMPH 2024 was excellent. Although some of the lectures were not related to my area of specialization, I benefited from attending most of the lectures, and it was interesting to gain information from them. The lectures I attended were professional.

It contributed to my professional development to a good extent. Since I am a dentist, it was beneficial for me to attend two lectures given by professional speakers of the same profession. Peers Alley Media did a great job in selecting international speakers for this event. All the lectures were well informative and of high level of knowledge.

I look forward to collaborating with you in the future, and to attending Future of PMPH in future events.

YOMNA ADEL WAGIH FAHMY SERAGELDIN

MISR INTERNATIONAL UNIVERSITY, EGYPT

The quality of talks at Future of PMPH 2024 was good.

KUNDOLY VELAYUDHAN SUSEELA

AMALA INSTITUTE OF MEDICAL SCIENCES, INDIA

I am writing in response to your request for a testimonial regarding my experience at the 4th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2024). I am delighted to share my thoughts and provide feedback on the event.

Firstly, I would like to express my appreciation for the quality of talks presented at Future of PMPH 2024. The speakers showcased in-depth knowledge and expertise in their respective fields, delivering insightful presentations that were both informative and engaging. The content covered a wide range of relevant topics, and I found the discussions to be highly beneficial to my professional development.

Speaking of professional development, I believe attending the Future of PMPH 2024 has contributed significantly to my growth in the field of preventive medicine and public health. The conference provided a platform for networking with professionals from diverse backgrounds, facilitating meaningful connections and the exchange of ideas. The knowledge and insights gained from the conference will undoubtedly enhance my work and contribute to my ongoing professional advancement.

I must commend Peers Alley Media, Canada for their excellent job in selecting speakers for thought-provoking sessions during the event. The speakers brought diverse perspectives and expertise, fostering engaging discussions that stimulated critical thinking. The selection process demonstrated a thorough understanding of the subject matter and a commitment to providing attendees with valuable and informative sessions.

NILOOFAR FARAJI LAHIJANI

GUILAN UNIVERSITY OF MEDICAL SCIENCES, IRAN

Hello, I had a wonderful experience at the conference with so many researchers around the globe and looking forward for more such experiences. The quality of talks at Future PMPH 2024 was excellent. It encouraged me for doing more research which will help in my professional development. Overall Peers Alley Media, Canada did a good job.

AISHWARYA PATIL

MGM DENTAL COLLEGE AND HOSPITAL, INDIA

The PMPH 2024 Conference was an honor to attend, and I have to admit that it well surpassed my expectations. The talks at PMPH 2024 were of an exceptionally high caliber. Every speaker provided a distinct viewpoint, supported by reliable research and real-world experience, which made each session interesting and educational. My invited speaker profile has served as a powerful catalyst for visibility and recognition within my Institution. Participating as an invited speaker has been a transformative journey of growth and learning. Peers Alley Media, Canada chose speakers who are highly knowledgeable, experienced, and engaging in their respective fields which made the conference a success. Finally, I would like to thank you, the organizers, for your hard work to make the conference beneficial to all of us.

JANE RUBEL ANGELINA JEYARAJ

KALASALINGAM ACADEMY OF RESEARCH AND EDUCATION, INDIA

The quality of talks at Future of PMPH 2024 was excellent. Although some of the lectures were not related to my area of specialization, I benefited from attending most of the lectures, and it was interesting to gain information from them. The lectures I attended were professional.

I am so glad you gave me such an excellent opportunity to attend the prestigious conference Future of PMPH 2024 in Amsterdam. At my best, I presented and shared my thoughts with experts from across the globe. The organization was so smooth, systematic, and fantastic. Lots of knowledge I learned from different personalities and had an enjoyable experience with various interactions. The knowledge and experience I have gained will be constructive and applicable to my study and research areas in future academic endeavors.

Really, Peers Alley Media selected very thoughtful speakers who can extend adequate practical knowledge and experience from various aspects of different fields.

I heartily thank Peers Alley Media for organizing such a high-knowledge-yielding conference.

I am looking forward to future contributions and collaborations.

LAISHRAM THAMBAL SINGH

MANIPUR UNIVERSITY, INDIA

I hope this email finds you well. I want to express my sincere gratitude for inviting me to participate in the 4th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2024). It was truly an enriching experience, and I am delighted to share my feedback with you.

The quality of talks at Future of PMPH 2024 was exceptional. The speakers provided insightful discussions on various topics within preventive medicine and public health, offering valuable perspectives and innovative approaches to addressing current challenges in the field.

The conference significantly contributed to my professional development by providing me with new knowledge, ideas, and strategies that I can implement in my practice. The diverse range of topics covered during the sessions broadened my understanding and enhanced my skills, ultimately benefiting my career advancement.

Peers Alley Media, Canada, did an outstanding job selecting speakers for thought-provoking sessions for this event. The lineup of speakers was impressive, representing expertise from different sectors and ensuring a comprehensive exploration of relevant issues in preventive medicine and public health.

I am truly grateful for the opportunity to participate in Future of PMPH 2024 and contribute to its success. Thank you for your dedication in organizing such a valuable event for professionals in the field.

Once again, thank you for the invitation and for considering my feedback. I look forward to future collaborations with Peers Alley Media.

MUHAMMAD SUBHAN

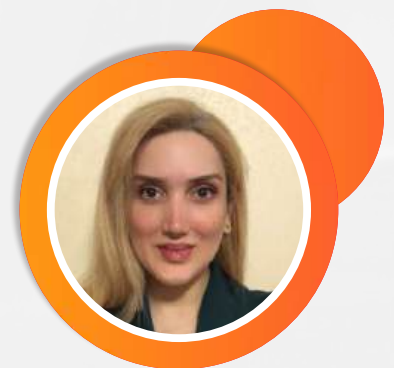

ALLAMA IQBAL MEDICAL COLLEGE, PAKISTAN

I'm grateful for the opportunity to attend the Future of PMPH 2024 conference, where professionals engaged in discussions on the latest healthcare research. The diverse topics with speakers from around the world provided valuable insights and improved my understanding of the field. The organizer provided excellent management, and it was a great experience, with smooth communication during the talks. Overall, my experience was great, and I am glad to join future events organized by your team.

Highly appreciate your consideration.

SPEAKER'S TESTIMONIALS

FUTURE OF PMPH 2023

<https://healthcare.peersalleyconferences.com/>

Testimonials

Tahmineh Azizi

University of Wisconsin-Madison, USA

I sincerely thank you for organizing the Future of PMPH 2023. I appreciate you for managing every moment and making the online atmosphere of the conference very productive and relaxing.

Everything was perfect. Your highest level of professionalism is well appreciated. Such a scientific sessions involves enormous amounts of time and energy. It was a perfect mix of topics, people, science and social gathering. I wanted to thank you very much for your excellent selection of speakers which has turned out to be a successful and highly stimulating conference. I would like to thank you for the most wonderful conference. It was a fruitful and amazing time for me.

Maria Bowie

University of Georgia, USA

I thought the quality of the talks I saw was very good.

It will help me better prepare for future opportunities to present internationally.

I thought that the organizers did a good job of getting a nice mix of presenters there.

Bernard Sinclair-Desgagne

Universite Cote d'Azur (GREDEG), France

I enjoyed participating in this conference.

I found the conference well-organized and professional.

David Ohreen

Mount Royal University, Canada

I enjoyed the quality of talks...very interesting and engaging.

I thought the conference contributed to my professional development.

Testimonials

Agustin de la Herran Gascon

Autonomous University of Madrid, Spain

I am very grateful to have participated in your excellent Future of PMPH 2023 event.

The organization and the presentations were outstanding. I think the speakers were well selected. Those I heard were of high quality and did contribute to everyone's professional development. Thank you very much for the effort invested and the magnificent result achieved.

In particular, I thank you for your kind and efficient treatment, which made me feel perfectly oriented at all times.

I hope we can collaborate in the future.

Sofia Veiga

Polytechnic Institute of Porto, Portugal

The talks I attended were of great quality. I particularly appreciated their investment and quality, many of them very dynamic and with well-supported studies.

I especially appreciated the communication on empathy (The Limits of Empathy in healthcare, by David Ohreen), as it is a relevant area for my professional field.

Ali Ahmadi

York University, Canada

Thanks for conducting this valuable conference and inviting us for giving speech.

I appreciate your kind efforts.

Agata Skalska-Stochaj

Stanisław Staszyc State University of Applied Sciences in Piła, Poland

The quality of the lectures at a high level, but they could be more careful about the time allotted to them. The speech contributed to my professional development and experience (does the conference have educational points?). The speakers were chosen correctly.

Testimonials

Nevena Josipovic

MaeDENTIS, Slovenia

Thank you once again for your invitation for the congress.

Congress was well organized and the quality of speakers were also very well!

Savani Sameer Futane

MPGIMER, India

It was a pleasure to present my work on this prestigious platform.

The conference was very well organized and was started on time.

The organizing team was very supportive and very prompt in helping and responding.

I wish all the success for your future conferences.

Mirza Kovacevic

Cantonal Hospital Zenica, Bosnia and Herzegovina

The quality of lectures was excellent. Given that the selection of lecturers was diverse, I had the experience to connect with a large number of medical disciplines and in this way to exchange opinions. My professional development with this conference will contribute to my further advancement in the academic sense and ideas in further research. Peers Alley Media, Canada did a good job selecting different speakers for sessions. Kudos to all the organization and members of the organizing committee who gave great importance to this event.

I appreciate being invited to this conference, and especially to be one of the speakers.

I hope for further cooperation

Sevda Fatullayeva

Institute of Catalysis & Inorganic Chemistry, Azerbaijan

First of all, I would like to thank you for accepting my report to such a prestigious international conference.

In my opinion, the organization of the conference was at a very high level and the reports were very interesting.

I wish you further success in organizing such important events.

Testimonials

Mohana Das

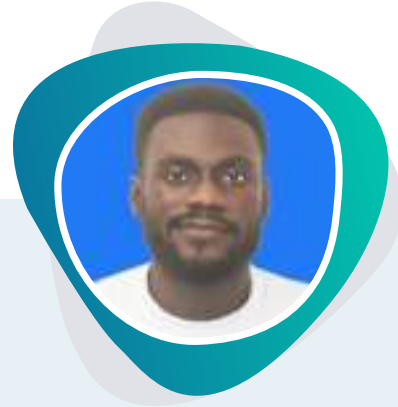

The Hong Kong Polytechnic University, Hong Kong

I had the opportunity to attend the conference, and I must say that the quality of the talks was excellent. The sessions were well-organized and engaging, with speakers who had a wealth of knowledge and experience in the field. I found the topics discussed to be relevant and thought-provoking, providing valuable insights that I could apply to my work.

Attending the Future of PMPH 2023 event has definitely contributed to my professional development. The conference provided an excellent opportunity to network with like-minded professionals, learn about the latest trends and developments in the field, and gain insights from industry experts. The sessions helped me broaden my knowledge and skill set, and I came away with valuable takeaways that will help me enhance my work in the future.

Regarding Peers Alley Media, Canada's role in selecting speakers, I think they did an excellent job. The speakers were highly knowledgeable and experienced, and they provided valuable insights and perspectives on the topics discussed. The organization of the conference was top-notch, and the team did an excellent job ensuring that the sessions were thought-provoking and informative.

Overall, I am extremely pleased with my experience at the Future of PMPH 2023 event. I highly recommend this conference to anyone in the field who wants to stay up to date with the latest trends and developments, network with fellow professionals, and gain valuable insights from industry experts.

Samuel Ampadu OTENG

Lingnan University, Hong Kong

It was an enjoyable experience at the 3rd International Conference on Future of PMPH 2023. The level of expertise and knowledge of the presenters were excellent. In addition, I appreciate their positive attitudes, willingness to explain concepts, and opportunities to ask questions.

Peers Alley Media did a great job in putting together diverse topics on public health from different cultural settings. I've learned a great deal for application in both my research and my profession.

Congratulations Peer Alley Media and thank you for the opportunity.

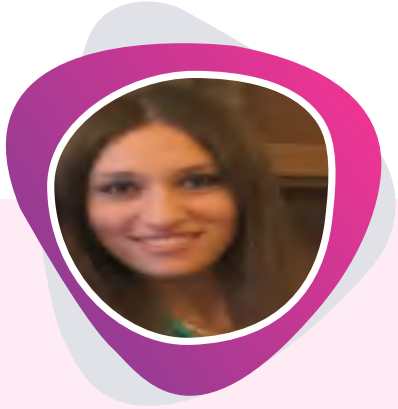

Lyazzat Kosherbayeva

Asfendiyarov Kazakh National Medical University, Kazakhstan

Very interesting to exchange experience of different countries. It will help to find new area to collaboration and works. I like the support from Peers Alley Media.

Testimonials

Noha Walid Shatila

Makassed General Hospital, Lebanon

The variety of presentations was very well received. I don't think anyone was not excited for the upcoming talks due to the different topics and ideas everyone had. This really positively impacted my view and knowledge overall. The speakers were all well versed, knowledgeable and quite interesting. Looking forward for next year's lineup.

SPEAKER'S TESTIMONIALS

FUTURE OF PMPH 2022

<https://healthcare.peersalleyconferences.com/>

Testimonials

Angela N. Buffenn

University of Southern California, USA

The program had an excellent speakers from different parts of the world, who are experts in their field. The meeting definitely contributes to the professional development of all presenters. Peers Alley Media, Canada did a great job selecting speakers for the event. Thank you.

Steven Loh

Nanyang Technological University, Singapore

Let me first start off with congratulations to the team for organising this successful event!

The quality of talks is reasonably good with a mix of diversities, that in my opinion, benefits participants and audiences who come from various fields. This selection is in-line with current trend of cross discipline exploration and research collaborations.

For the reason above, I feel that this conference provided eye-opening experience and raised interesting ideas that may help in my work. Peers Alley Media, Canada did a remarkably good job and I wish to thank you all for your great effort.

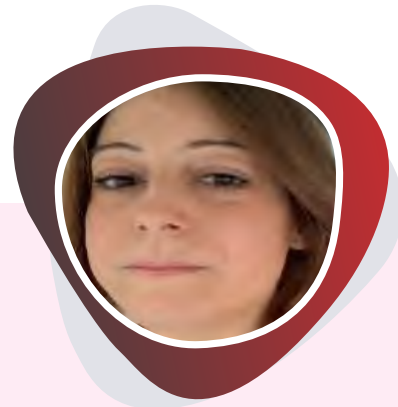

Thank you for the great job once again, cheers to all!

Jessie Childs

University of South Australia, Australia

The conference was good and the quality was great.

Monica Benvenuto

University of Rome "Tor Vergata", Italy

Thank you for the wonderful opportunity!!

The conference was very interesting and the quality of the talk was very high. I have enjoyed the conference. It was a great experience to listen to the studies and thoughts of researchers all over the world.

Thanks to Peers Alley Media Canada for providing this platform to share my research with other researchers with diverse expertise in medicine.

Testimonials

Marina F. Gubkina

Central TB Research Institute, Russia

Thank you for the opportunity to share my knowledge with a broad audience.

I should note the high level of organization at each stage of the conference: accuracy and perfect coordination at the preparation stage, rapid access to all necessary information, high quality of conference materials (programme, collection of abstracts).

Multidisciplinary presentations and a wide range of represented countries has raised interest to the conference, allowed expanding scientific horizons and hoping that scientific collaboration between different countries for the health of humans will remain beyond political differences of the countries.

Aissetu Barry Ibrahima

Northeastern Illinois University, USA

Thank you so much for the acknowledgement and recognition.

It was a great conference. The diversity of speakers in every way has been enriching by itself. Great Work!

I wish I was able to attend it face to face. It would have been phenomenal!!!

Jorge Mandl Stangl

Ministerio Popular para la Salud, Venezuela

First of all, my sincere congratulations to the whole team for their organisational efforts, both in Canada and in London. I understand how difficult it is to organise and run such events, especially in difficult times like these.

As for the quality of the presentations: all were concise, clear, cohesive and on time.

Undoubtedly, the great expertise of the speakers and the diversity of topics covered, allowed us to increase the knowledge for our professional life.

I think the best was the diversity in the selection of participants. Normally such conferences end up with a program focused on medical care. This was not the case at Future of PMPH 2022, where the multi-diplinarity of public health was the north of the program. Another good thing that I think should be highlighted was the inclusion of the abstracts in the program information booklet, which allowed us to prepare our questions and doubts well in advance.

Testimonials

Roberto Sanchez

University of Concepcion, Chile

Personally, it has been very rewarding for me, especially when I am close to my retirement as an academic. Together with my wife we had a wonderful stay in London, at a very special stage of our lives.

The organization and team of Peers Alley Media, who assisted us, were very friendly and professional. My congratulations.

Peter Walton

Independent Researcher, UK

I presented a paper at the 2nd International Conference on the Future of Preventive Medicine and Public Health held in London in March 2022. The quality of the talks was outstanding, and the themes which were covered were wide-ranging. All the talks were of great interest.

The conference certainly contributes to professional formation and offers ample opportunity to meet and exchange ideas with others working in related fields.

Peers Alley Media organised the event with professionalism and competence. It was a pleasure to be able to attend.

Oliva Maria Eugenia

National University of Litoral, Argentina

The quality of talks are very interesting.

Christoph Lutge

TUM Institute for Ethics in Artificial Intelligence, Germany

It was a great conference!

Testimonials

Jungyoon Choi

Vanderbilt University Medical Center, USA

I'm quite satisfied with the quality of talks at PMPH 2022.

Despite all the difficulties, full assistance was given by the management and made me feel confident. And I enjoyed the meeting.

Although I participated in this conference via virtual meeting, the global connection encouraged me. Also, presenting and sharing opinions with global experts could contribute to my professional development. I really appreciate this opportunity.

Yes, I'm quite satisfied with talks and sharing ideas about public health in diverse topics from all over the world. Thank you so much!

I'm so honored to be invited to this PMPH, and grateful to be the recipient of this award.

I really enjoyed this conference and look forward to the future PMPH also! Thank you so much for all your support!

Supattra Changsuphan

Sukhothai Thammathirat Open University, Thailand

The conference achieved its objectives and was valuable to support healthcare professionals.

Overview, the knowledge can guide the idea to contribute to healthcare professionals' jobs.

Many topics are related to my field, and I can apply the idea to my job. For example, engagement of care for older adults and the care program for preventing and caring in the institute and community.

Peers Alley Media, Canada, did a great conference. The speakers have more experience related to their fields. That is nice to have speakers from any part of the world to share.

Testimonials

Yu-Ju (Julia) Huang

University of Houston, USA

First of all, I would like to address that this conference is a great event and provides a platform for people from public health and prevention medicine to share their research, clinical observations, and cases with people around the world. I did enjoy the participation and learned from other scholars.

The talks are good. I appreciate the conference committee arranged diverse topics to present. The facilitator did a great job in connecting the presentations.

I like the missions and purposes of the Future of PMPH. I strongly support and agree with them. I also believe the conference committee could create an international platform for people to discuss research and hot issues from the channel that has been created by your institute and develop their professional competence.

I suggest hosting professional continuing education workshops, seminars, or webinars may be very particular months. Therefore, more people will be aware of your institute and hope there will be more people to participate in the annual conference.

The Peers Alley Media Canada did an excellent job arranging speakers and topics for the sessions. It is very challenging to organize the people worldwide and set their presentations at times suitable for them. I appreciate that my presentation time was arranged at noon in my local time. My energy was great to present.

I look forward to participating in future events with your institution.

It has been my honor to be invited to present at the conference.

Thank you very much for your coordination of the event and for supporting my presentation throughout the whole process.

I look forward to participating in the conference again or events with your institute in the near future.

Mahmoud Rokaya

Taif University, Saudi Arabia

They were excellent however the diversity was extreme considering my domain and the domain of most talks were from medicine and related fields.

It is very far from my own topic, however listening to people from outside the domain might give very excellent ideas to go ahead.

No comment, all are excellent in their domain. Very good achievement.

Qinwei Fu

Chengdu University of Traditional Chinese Medicine, China

Many thanks for your invitation and ask. It's my first time to attend international conference, and I think the Future of PMPH 2022 is perfect.

To be honest, it's good for me, which provided me with knowledge of new advances.

Testimonials

Joana Filipa Barbosa Teixeira

REQUIMTE-LAQV-Instituto Superior de Engenharia do Instituto Politecnico do Porto, Portugal

PMPH2022 combined renowned researchers, scientists and students to exchange ideas, to present sophisticated research works and to discuss hot topics and share their experiences on all aspects of Preventive Medicine and Public Health. This conference presented a wide variety program consisting of lectures covering all topics in Preventive Medicine and Public Health.

This event aimed to attract global participants promoting the sharing, exchanging and exploring of new developments of Preventive Medicine and Public Health. Moreover, the conference offers a valuable platform to create new contacts in this field, by providing valuable networking time for the participants to exchange contacts.

The lectures presented different appealing subjects that motivated the audience for a beneficial discussion with the speaker.

Hope to see you next year!

Nu Quy Linh Tran

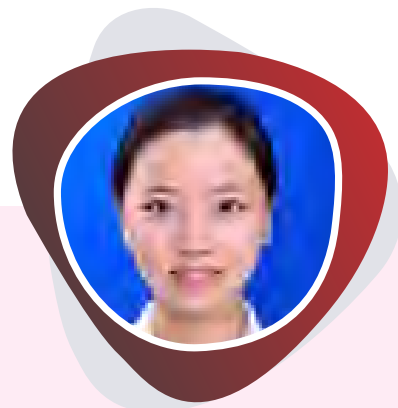

Griffith University, Australia

I only joined two half days of the conference. In my opinion, the virtual conference was organized well, on time, and follow the timetable. The speakers came from different fields and they had shared many interesting topics. The speakers had well prepared their slides and had great speaking.

I had opportunities to listen to many hot and interesting topics, especially in economic, health, and social recovery after the Covid-19 pandemic. After the conference, I have some ideas for my future research ideas.

The speakers were well selected and they are experts in their fields. They had great presentations.

Thank you for your support and hope to see you at the 2023 conference.

Xiaolei Liu

West China Hospital, Sichuan University, China

The quality of talks at Future of PMPH 2022 are good. Got some experience in the conference sharing. Peers Alley Media, Canada, did a good job.

Testimonials

Kathy Shum

The University of Hong Kong, China

Thank you for coordinating the conference. The logistics arrangements were well managed.

Gunjan Bahuguna

All India Institute of Medical Science, India

Thank you so much for inviting me as a speaker at the 2nd International Conference on Future of Preventive Medicine and Public Health 2022.

The quality of the talks was extremely good, than you for this academic fest.

I definitely look forward to it in the future and pass is on to my colleagues as well. Thank you so much and many congratulations for making it a great success.

Avinash Hanbe Rajanna

Rajiv Gandhi University of Health and Sciences (RGUHS), India

The selected talks where excellent.

Sonika Sangra

GMC Kathua, India

The quality of talks were very interesting and learned a lot.

This kind of conference with sharing platform at international level leads to the professional enhancement at every level. Peers Alley Media done an excellent job.

Testimonials

Ashraf Mansour

University of Al Fashir, Sudan

The quality of the conference is excellent because I learned new knowledge from different aspects of medicine.

Deepa Selvi Rani

CSIR-Centre for Cellular and Molecular Biology, India

The quality of talks at Future of PMPH 2022 are very good.

Very good.

Mahla Daliri B.O

Mashhad University of Medical Sciences, Iran

Thank you so much for holding this great event.

Almost all presentations were high quality talks.

I have learned a lot about different aspects and vast range of health activities and research in preventive medicine and public health.

Anna Seitero

Linkoping University, Sweden

Thank you, the conference gave me an opportunity to present my research and practice and develop skills. This was my first international conference and in my opinion, the quality of the presentations was good and I enjoyed to listening to the presentations.

Testimonials

Zdzislaw Kieliszek

University of Warmia and Mazury
in Olsztyn, Poland

Very high. All the papers were very interesting
and the topics raised were topical.

Maria Velana

Dortmund University of Technology,
Germany

“It is an honour to be invited to participate in the international conference Future of PMPH 2022 and I was delighted to be there. The quality of talks and above all, the human qualities of the researchers who introduced their studies and shared their experiences with the audience, contributed to the success of this event. Furthermore, the commitment and the efficiency of the organization committee was really exceptional, as they were always ready to help the participants with any issue they encountered. Overall, it was a very positive experience and I look forward to the next event.”

Thanks again for hosting this wonderful conference!

SPEAKER'S TESTIMONIALS

FUTURE OF PMPH 2021

<https://healthcare.peersalleyconferences.com/>

Testimonials

Nana Amma Acheampong

University of Maryland Global Campus, USA

Thanks for your email. I wish to extend my sincerest gratitude to you and your team for the opportunity to participate in the conference. Indeed, you put together a successful conference and the presentations were stimulating. The host did an excellent job and I commend him for his professionalism and patience.

Neetu Talreja

University of Concepcion, Chile

It was very nice to participate in the conference. The quality of the talks was nice and nice to gain the knowledge of research from other international participants. I love to share my knowledge with other researchers and also love to know the research of others that's why I love conferences a lot. Nevertheless, it gives me knowledge about recent progress in infectious disease. It was a good selection of speaker from the international research community. I am happy with this.

Rebecca Pratiti

McLaren Health Care, USA

The conference had a broad range of public health topics that were discussed by speakers from varied settings including clinicians, epidemiologists, economists, etc. Hence it gave exposure to different public health problems from different countries. Thanks for your time and kind consideration.

Hemant Thakur

V.A. Medical Center, USA

The speakers came from diverse background from different countries and it was important to hear what is going on in other countries and problems they are researching. Researchers were doing research in diverse area which can be valuable to preventive care in future. Peers Alley Media did chose thought provoking diverse speakers.

Testimonials

Ana Claudia Trocoli Torrecilhas

Federal University of Sao Paulo (UNIFESP), Brazil

The quality of talks at Future of PMPH 2021 is very high quality. The presentation are diverse. Peers Alley Media, Canada did an excellent job in selecting speakers.

Kristen M Agena

A.T. Still University of Health Sciences, USA

I thought the talks were very good with a great range of topics. However, due to the extreme range of content, I felt that only about half of those that I watched covered content beneficial to my professional endeavors. The conference staff did a good job.

I enjoyed being a part of the conference and appreciate the opportunity to present on my paper.

Dorit Avni

MIGAL - Galilee Research Institute, Israel

The event was extremely well organized, not only at the event itself but before as well. It was handled professionally on your side and conducted fluently. Regarding the speakers, as these kind of events are the places we can contact new researchers for future collaboration. Many thanks for invited me, I have enjoyed the event.

Nazia Mumtaz

Riphah International University, Pakistan

Thanks for your email.

The quality of talks at Future of PMPH 2021 are good. I joined twice during the event & saw participants from different countries. Some of the content was really up to mark. The topics selected were well thought and delivered.

Testimonials

Patrizia Guidi

University of Pisa, Italy

The presentations were of good quality. Not all presentations dealt with topics close to my interests, however most of them were interesting to me. However this could in establishing contacts for international projects, I hope! The selection work was good even if the sequence of relations was not always consistent, perhaps due to the different time zones.

Marta Madalena Marques de Oliveira

Instituto Politécnico do Porto, Portugal

The quality of the talks were good and covered a wide range of topics. I enjoyed the conference because I could learn new approaches presented by other researchers and I could also make new contacts. Participation at this conference allowed me to know complementary research areas, learn about them and plan some future collaborations.

Adrian Lopez Alba

12 de Octubre University Hospital, Spain

I think that there was a high quality congress. The experience was a great. I really enjoyed the conferences and I learn a lot. I think that the congress will help positively for my personal development. I think that Peers Alley Media did a great job. I hope that there will be a new Future of PMPH on 2022.

Maher Khader Mustafa

Queen Rania Children Hospital,
Royal Medical Services, Jordan

Thank you a lot for this respectable conference. It seems to me that the quality of talks was very good. I enjoyed and loved the meeting. I guess it will be helpful in my work. Also I believe that Peers Alley Media, Canada did great job.

Testimonials

Muhammad Hanif

Hayatabad Medical Complex, Pakistan

The quality of talk was amazing and speaker presented their topic in a great and professional manner. I really enjoyed every minute of it. I am really thankful to you because this presentation will help me a lot in future. This conference help me to learn from highly professional speakers that how to present your work. I really appreciate the job of your organization and indeed the host was very humble. I am looking forward to work with you in near future. Thank you very much.

Rajan Ghimire

District Hospital, Nepal

It was really a wonderful experience for me and I must say that organizational part was also excellent despite ongoing pandemic.

Nana Amma Acheampong

University of Maryland Global Campus, USA

What a great event and an impressive quality of talks at Future of PMPH 2021. Kudos to the host of the two-day conference whose adroitness in managing presenters' speaking time and the minor technological glitches that popped up, did a whole lot of good to enhance the quality of talks during the sessions. More so, the talks offered a unique array of presentations based on meaningful content that highlighted the problems and solutions for public health.

Hassan Vatandoost

Tehran University of Medical Sciences, Iran

The conference was conducted excellent. I enjoyed and learned too much. We had some discussion with presenters and wish to have bilateral collaboration with them in the future. All the answers of questions is excellent.

Testimonials

Saima Ejaz

Department of Physiology, University of Karachi, Pakistan

The quality of talks at Future of PMPH 2021 was great. It was good experience listening from experienced doc and professor. Yes, it helped to communicate internationally. Peers Alley Media did a great job in making this event successful.

Huan-Huan Wei

Chinese Academy of Sciences, China

Peers Alley Media did great job in organizing the meeting, including the design of the conference book and arrange of the speakers.

Amir Hossein Mahvi

Tehran University of Medical Sciences, Iran

I have to seen that the level of the conference was high scientific and it was very useful for my future researches and teaching. I appreciate so much the work done to conduct such very excellent webinar. I hope to cooperate in future.

Diah Indriani

Universitas Airlangga, Indonesia

This was an awesome conference with a lot of speakers which gave a lot of great research. Peers Alley Media has been very good at managing speakers. Thank you for organizing this conference very well. Thank you.

Testimonials

Muhammad Ahmad Alamgir

Bahawal Victoria Hospital / QAMC
Bahawalpur, Pakistan

I hereby express gratitude and appraisal to the Future of PMPH and peers alley media for holding an international conference. All the speakers had innovative and intellectual talks. This conference has been a platform for transformation of academic knowledge for the health care professionals and the public as well. I also appreciate the best services of program director and other concerned persons.

Ralph Udeh

University of Newcastle, Australia

It was a great pleasure to attend that conference. Thanks once again.

Shrabanti Maity

Vidyasagar University, India

It was a great experience. Hope in future will get such wonderful chance.

Testimonials

Subhrajit Mukherjee

Indian Institute of Technology Kharagpur, India

It was really a great experience to be a part of such a wonderful international conference, The Future of PMPH 2021. I consider myself very minimal in front of such high impactful & notable jury of people invited as honorable speaker. The vast quality and distributed field of eminent researchers were the main source of inspiration for the spectators or audiences. I think this actually helped everyone to gather huge knowledge unknown & interesting facts during this pandemic situation. I feel this level of conferences should be taken forward for the betterment of mankind as well as society. Moreover, it will actually help all of us to relate our own research with medical or healthcare field. I personally appreciate the huge level of support & coordination from your entire PMPH team management. PMPH service should be applauded in all formats. Really great work done during such tough times. It was a great pleasure to contribute minimum from my end. I am also interested and looking forward to attend such conferences by the Peers Alley Media in the upcoming days. Thanking you.

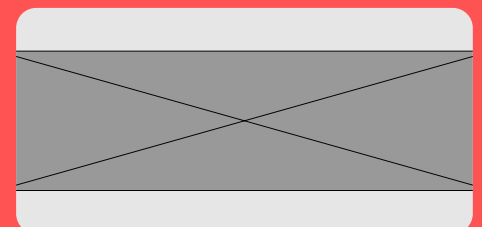

Nana Amma Acheampong

University of Maryland Global Campus, USA

The two-day conference has been truly beneficial and a great learning experience for me. Thanks to this conference, I can confidently add public speaking to my list of skills. I learned a lot from listening to the engaging and extremely insightful presentations from seasoned researchers and practitioners in the medical and other related fields. I believe the best practices I learned from the competent line up of speakers would help me a great deal in my professional life. Most importantly, the conference offers remarkable opportunities to network and collaborate with other researchers in the future. Peers Alley Media did not disappoint with an impressive line-up of competent and dynamic speakers whose presentations were not only of high quality but also contributed to the advancement of the research on public health.
