

3rd GLOBAL CONFERENCE ON ADVANCED NANOTECHNOLOGY & NANOMATERIALS

June 26-27, 2023

PARIS, FRANCE

Theme

“ Immense benefits of advanced nanotechnology, including its ability to address global challenges as well as current trends and cutting-edge technologies ”

2

DAYS WITH MORE THAN
45 SESSIONS,
KEYNOTES & TALKS

12+

INNOVATIVE FEATURED
SPEAKERS

20+

HOURS OF
NETWORKING EVENTS

60+

INTERNATIONAL
SPEAKERS

125+

EDUCATIONAL SESSIONS

NANO INTELLECTS 2023

Park, New Zealand

Welcome Message

Nanoscience and nanotechnology are among the most exciting areas of research since the beginning of this century, and it has the potential to continue expanding to almost any other field of research and development in the future. From single-walled carbon nanotubes to self-assembled DNA nanostructures, the possibility to manipulate, modify and even design molecular structures at a nanometre scale proposes unmatched opportunities for the creation of new elements and properties that could literally change the material world as we know it.

NANO Intellects 2023 conference offers the opportunity to share ground-breaking discoveries in nanoscience and nanotechnology among renowned international experts and new generations of scientists and students. The objective is to disseminate and debate about everything that is happening in the field, such as advances in nanomaterials, modern electronic devices, new materials, new medical applications, renewable energy devices, nano-biosensors for disease detection, anti-terror uses of nano-sensors, nano-scale materials in drug delivery devices, nano-materials use in high-capacity batteries, nano-materials, nano-films, supercomputers, biosensors and so on. In addition, the conference provides a unique opportunity to meet new colleagues and develop international connections for the benefit of both attendees and the scientific community in general.

NANO Intellects 2023 will be held on **June 26-27, 2023** in **Paris, France**. We invite speakers and delegates from all around the world to attend the conference and present their latest studies and discoveries. Scientific presentations in 2022 included, vehicular networks, active nanobots, negative pressure, machine learning, cancer treatment, single-cell algae, artificial intelligence, organic diodes, bio-ceramic particles, membrane filtration, human machine systems, nanoelectronics, nanocomposite materials, quantum computer, nano-meter wavelengths, controlled drug delivery, and energy harvesting to mention a few.

We look forward to receiving your abstracts soon, as well as meeting you at the **3rd Global Conference on Advanced Nanotechnology and Nanomaterials (Nano Intellects 2023), Paris, France**.

Best regards,

Diego Elustondo

Scion, Te Papa Tipu Innovation Park, New Zealand

PRESENTATION FORUM

KEYNOTE FORUM / MINI-PLENARY SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

STUDENT FORUM

POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

NO SECRET IS SAFE SHARE YOUR RESEARCH

EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/ CORPORATE WORKSHOPS/MINI- SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

HIGHLIGHTS OF THE DAY SESSIONS

“Highlights of the Day Sessions” is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

SCIENTIFIC TRACKS/ SESSIONS

Nanoscience and Technology | Novel Drug Delivery | Nano polymers, Nanotubes and Nano porous Materials | Nano Physics | Nano Weapons | Nano-Surgery | Functional Nano Materials | Graphene and Fullerenes | Properties of Nanomaterials | Materials Science and Engineering | Nano Structures | Nanotechnology in Materials Science | Nano Chemistry | Molecular Nanotechnology | Nanotechnology in Cancer Treatment | Nanotechnology and Energy | Nanostructures and Nanofilms | Nano Medicine | 3D Printing | Carbon Nanotubes | Fuel Cells | Lipid Nanotechnology | Nano Biotechnology | Nano Pharmaceuticals | Nano Polymers | Nanotechnology in Tissue Engineering | Robotics

CONCURRENT EDUCATIONAL SESSIONS

MONDAY
June 26
2023

NANOSCIENCE AND TECHNOLOGY

- Scanning Probe Microscopy
- Nanofabrication
- Functional Nanoparticles
- Nanomaterials
- Molecular Engineering
- Bionanotechnology

NOVEL DRUG DELIVERY

- Targeted delivery
- Controlled-release formulations
- Delivery of biologic drugs

NANO POLYMERS, NANOTUBES AND NANO POROUS MATERIALS

- Bio-hybrid polymer nanofibers
- Engineering applications
- Structure of single-walled tubes
- Microporous materials

NANO PHYSICS

- Quantum Measurements
- Nanophysics applications
- Nano mechanical Resonators
- Quantum Mechanics
- Carbon Nano tube

GROUP PHOTO | COFFEE BREAK

NANO WEAPONS

- Soldier Battlesuit
- Enhanced Materials
- Communication Devices
- Mini-nukes
- Aerospace Application
- Military Research

NANO-SURGERY

- Minimally invasive surgery
- Optical Nano surgery
- Visualization
- Nanomedical Devices
- Nanotechnology in wound healing

FUNCTIONAL NANO MATERIALS

- Fullerenes
- Nanoparticles
- Metal-based nanoparticles
- One-dimensional nanostructures
- Bulk nanostructured materials
- Nanoporous materials

GRAPHENE AND FULLERENES

- Polymerization
- Safety and toxicity
- Exploring commercial applications
- Ambipolar electron and hole transport
- Chiral half-integer quantum Hall effect
- Thermal conductivity
- Polycrystalline graphene

LUNCH BREAK

PROPERTIES OF NANOMATERIALS

- Litracon
- Mineralogy
- Metallurgy
- Polymer Science
- Crystallography
- Ceramic Engineering
- Nuclear Spectroscopy
- Supramolecular Chemistry
- Forensic Materials Engineering
- Femtotechnology, Picotechnology

MATERIALS SCIENCE AND ENGINEERING

- Fullerenes
- Nanoribbon
- Quantum Dot
- Nanotechnology
- Icosahedral Twins
- Carbon Allotropes
- Nanostructured Materials
- Nanostructured Materials
- Tube-Based Nanostructures
- Gradient Multilayer Nanofilm

NANO STRUCTURES

- Reducing the cost of solar cells
- Generating steam from sunlight
- Generating hydrogen from sea water
- Producing high efficiency light bulbs
- Improving the performance of batteries
- Storing hydrogen for fuel cell powered cars
- Generating electricity from waste heat
- Clothing that generates electricity
- Increasing the electricity generated by windmills
- Reducing friction to reduce the energy consumption

NANOTECHNOLOGY IN MATERIALS SCIENCE

- Chemotherapy
- Hormone Therapy
- Radiation Therapy
- Stem Cell Transplant
- Targeted Therapy
- Immunotherapy to Treat Cancer
- Biomarker Testing for Cancer Treatment

COFFEE BREAK

NANO CHEMISTRY

- Drug delivery
- Fluorescent
- Nanotopography
- Nanolithography
- Tissue engineering
- Nanowire compositions

MOLECULAR NANOTECHNOLOGY

- Utility Fog
- Phased-Array Optics
- Medical Nanorobots
- Massive Parallelism
- Technical Issues and Criticism
- Technical Issues and Criticism
- Smart Materials and Nanosensors

NANOTECHNOLOGY IN CANCER TREATMENT

- Delivering Gene Therapy
- Nano-enabled Immunotherapy
- Delivering Chemotherapy
- Delivering or Augmenting Radiotherapy

ADVANCING CELLULOSE-BASED NANOTECHNOLOGY

- Bacterial Nanocellulose
- Cellulose Nano-Structures
- Cellulose Nanowhiskers
- Nanocellulose-Based Nanocomposites
