

8TH EDITION OF

ADVANCED NURSING PRACTICE NURSING EDUCATION AND LEADERSHIP CONCLAVE

Theme: "Advancing Nursing
Excellence: Leadership, Innovation, and
Patient-Centered Care Through Education,
Research, and Technology Integration "

2027

JUNE 17-18

SINGAPORE

SUB THEMES

- Innovations in Clinical Nursing Practice
- Transformative Nursing Education
- Leadership and Management in Nursing
- Patient-Centered Care and Ethical Practices
- Global Health and Community Nursing
- Nursing Research and Evidence-Based Practice
- Health Policy and Advocacy in Nursing
- Mental Health and Wellbeing of Nurses

WHY TO ATTEND?

What you take

Attending a Nursing conference offers a unique opportunity to connect with leading professionals, explore emerging trends in nursing and healthcare and gain insights into groundbreaking innovations. It plays a vital role in career development by enhancing clinical knowledge, expanding skill sets, and opening new doors for collaboration and advancements.

WHO SHOULD ATTEND?

UNIVERSITY OF THE
INCARNATE WORD

Lorena D. Paul

University of the Incarnate Word, San Antonio, Texas, USA

Dear fellow global nursing colleagues and leaders,

It is a genuine pleasure to welcome you to the 8th Asia-Pacific Advanced Nursing Practice, Nursing Education, and Leadership Conclave Conference which will be held in Singapore on June 17-18, 2027, a gathering that continues to distinguish itself through its remarkable breadth, depth, and relevance to today's clinical practice environment.

What impressed me most about the Nursing Asia-Pacific 2026 program—and what I am delighted for you to experience—is the extraordinary diversity of topics that reflect the realities of modern healthcare. From emerging clinical innovations to evolving models of care delivery, the sessions are intentionally designed to meet the moment we are living in: one defined by rapid change, global interdependence, and the need for adaptable, evidence driven practice.

I was especially inspired by the interprofessional perspectives woven throughout the conference. Presenters representing a wide range of disciplines bring forward not only their research, but also their lived experiences, philosophies, and insights into current global health challenges. Their collective expertise enriches every discussion and reminds us that meaningful progress in healthcare is always a collaborative endeavor.

Throughout the conference, you can look forward to engaging dialogue and presentations that highlight:

- Clinically relevant, up to date research that informs and elevates practice
- Diverse and innovative approaches to addressing contemporary healthcare challenges
- Interprofessional viewpoints that broaden our understanding of global health issues
- Thoughtful reflections on how philosophy, ethics, and professional identity shape care delivery

This event offers a valuable opportunity to connect with colleagues who share your commitment to advancing practice, improving patient outcomes, and strengthening the future of healthcare. I hope you leave with renewed energy, expanded perspectives, and a deeper appreciation for the power of interdisciplinary collaboration.

Thank you for being part of this important gathering. I look forward to the conversations, insights, and inspiration that will undoubtedly emerge.

Sincerely,

Lorena D. Paul, DNP, MEd, GCNE, AMB-BC

Associate Professor

School of Nursing & Health Professions

University of the Incarnate Word

San Antonio, Texas, USA

Anica Badanjak

Polyclinic for Peripheral Vascular Rehabilitation (P.V.R.), Zagreb, Croatia

Esteemed Colleagues,

It is my great pleasure to invite you to participate in the 8th Asia-Pacific Advanced Nursing Practice, Nursing Education, and Leadership Conclave, which will be held in Singapore on June 17-18, 2027. It will be an excellent opportunity for healthcare professionals, researchers, educators, and clinical leaders from around the world to exchange knowledge, share experiences, present innovative research, international collaboration, and contribute to the advancement of healthcare.

I had the honour of being an invited speaker at the previous Conference, and the privilege of experiencing exceptional scientific program, inspiring discussions, and the warm collegial atmosphere that brought together experts from many countries. It is therefore a pleasure to encourage you to participate in this outstanding international event.

As an endocrinologist and diabetologist, I firmly believe that the future of healthcare depends of collaboration among disciplines, continuous education, evidence-based practice, and the integration of innovative technologies into everyday clinical care. Chronic diseases, particularly diabetes and its vascular complications, remain among the greatest global challenges, making the exchange of knowledge and experience more important than ever.

This Conference offers an excellent opportunity to explore the latest advances nursing practice, healthcare education, clinical leadership, and interdisciplinary care through inspiring keynote lectures, scientific presentations, and meaningful professional networking.

I wish you a rewarding and inspiring experience at the 8th Asia-Pacific Advanced Nursing Practice, Nursing Education and Leadership Conclave.

With my warmest regards

Anica Badanjak, MD

Endocrinologist and Diabetologist

Polyclinic for Peripheral Vascular Rehabilitation (P.V.R.), Zagreb, Croatia

Rose E. Constantino

University of Pittsburgh School of Nursing, USA

Dear Esteemed Colleagues

I am so pleased to invite you to attend the 8th Asia-Pacific Advanced Nursing Practice, Nursing Education, and Leadership Conclave, to be held on June 17-18, 2027, in the beautiful city of Singapore. We all understand the challenges faced in health and nursing arising from an aging workforce, reimbursement complexities, changes in healthcare management, evolving technologies, and access issues.

Our minds are constantly engaged in deep, rational, and analytical thinking. Additionally, new trends in the delivery of nursing care and in the training and education of medical personnel are reshaping the nursing landscape. Our work has never been more stressfully exciting. This conclave will showcase speakers from across the world addressing research and practice underway to address the challenges we face in a variety of health and nursing areas.

You can anticipate engaging presentations and conversations regarding:

- New research in health and nursing practice
- Innovative strategies addressing research, health, nursing practice, and education of healthcare professionals
- Leadership practices are being utilized to address the changing models of healthcare.

This conference will provide an excellent opportunity to network with colleagues from around the world and share your expertise and insights. I hope you will consider joining us, plan on returning home with renewed enthusiasm to continue the work of reimagining and providing healthcare.

Sincerely yours,

Rose E. Constantino, PhD, JD, RN, FACHE, FAAN

Associate Professor and Fulbright Scholar

Department of Health and Community Systems

University of Pittsburgh School of Nursing, USA

David John Wortley

World Lifestyle Medicine Education
Services (WLMES), UK

Dear distinguished delegates, honored guests, colleagues, and friends!!

It is a genuine privilege to welcome you to the 7th Asia-Pacific Advanced Nursing Practice, Nursing Education and Leadership Conclave here in Singapore on June 17-18, 2027. Throughout my career, I have been fascinated by the relationship between people and technology. From the earliest days of computing to today's extraordinary advances in artificial intelligence, digital medicine, wearable technologies, and precision healthcare, I have witnessed innovation transform almost every aspect of our lives.

Yet one lesson has remained constant | Technology alone has never changed the world | People change the world.

And nowhere is that more evident than in the nursing profession. We are living through one of the most significant transitions in healthcare history. Around the globe, populations are ageing, chronic disease is increasing, healthcare resources are under growing pressure, and patients rightly expect more personalized, preventative, and compassionate care than ever before.

Artificial intelligence will undoubtedly become an invaluable partner in healthcare. It will analyse medical images in seconds, identify disease before symptoms appear, personalise treatments, and help clinicians make faster, better-informed decisions. Digital twins, wearable technologies, and predictive analytics will move healthcare from reacting to illness towards proactively maintaining wellness.

But AI will never replace the reassuring smile of a nurse. It will never comfort an anxious patient with a gentle touch. It will never inspire confidence through empathy, compassion, or genuine human understanding. Those uniquely human qualities remain the foundation upon which great healthcare is built. The future belongs not to technology alone, but to those who know how to combine technological excellence with human kindness.

That is why this conference is so important.

Over the next two days, we have an exceptional opportunity to share research, exchange ideas, challenge assumptions, celebrate innovation, and strengthen collaborations across disciplines, cultures, and continents. Every conversation you have, every question you ask, and every new connection you make has the potential to improve healthcare for countless people around the world. I encourage you to approach this conference with curiosity, openness, and optimism. Learn from one another. Share your experiences generously. Be inspired by new ideas. Most importantly, remember that the knowledge you gain here is not simply for professional development—it has the power to improve lives.

As nurses, educators, researchers, and healthcare leaders, you are not simply adapting to the future of healthcare—you are helping to define it.

I hope you leave this conference with new knowledge, new friendships, renewed inspiration, and a shared determination to build healthcare systems that are not only smarter, but kinder; not only more efficient, but more human. Together, let us ensure that, as technology continues to evolve, humanity remains at the very heart of healthcare.

Thank you for being here. I wish you an inspiring, rewarding, and truly memorable conference.

Sincerely,

David John Wortley

World Lifestyle Medicine Education Services (WLMES), UK

Yih-Jian Tsai

National Cheng Kung University
Department of Public Health

Dear Esteemed Colleagues,

I am delighted to invite you to the 8th Asia-Pacific Advanced Nursing Practice, Nursing Education, and Leadership Conclave, taking place in Singapore on June 17–18, 2027.

As global populations age, delivering high-quality, safe nursing care across hospitals, communities, and long-term facilities grows increasingly complex. While modern healthcare systems now integrate advanced AI medical equipment and streamlined protocols, technology can never replace human-centered care. Consequently, we must continually elevate our clinical expertise and interpersonal skills to match these technological breakthroughs, improving our standards in nursing services, education, and research.

This conclave serves as a premier platform to share vital knowledge, clinical skills, and innovative healthcare strategies. It will unite nursing specialists, researchers, and policymakers to exchange ideas and showcase their latest achievements.

I look forward to welcoming you to this summit as we work collaboratively to elevate nursing care, learning, and leadership.

Sincerely yours,

Yih-Jian Tsai MD, MHP, Department of Public Health

College of Medicine, National Cheng-Kung University, Tainan, Taiwan.

Gerald H Katzman

Wayne State University School of Medicine, USA

School of Medicine

Dear Nursing and Healthcare Colleagues,

It is my distinct privilege to invite you to attend the 8th Asia-Pacific Advanced Nursing Practice, Nursing Education and Leadership Conclave that is scheduled to be held June 17-18, 2027 in the unique independent sovereign island country and city state of Singapore.

The goal of the conference is to emphasize newly coordinated approaches to healthcare systems emphasizing the three building blocks of education, patient care and research. Traditionally these parameters have been and continue to be relied upon to respond to challenges in medical care. Whether it is primary care, specialty care, emergency care, public health, rehabilitation services or palliative care, there are many areas worldwide where innovative ideas, improved organization, new medical discoveries and greater resources in person power and financial support could dramatically improve patient care.

The advances we seek in patient care often come from different disciplines. So, it may be nurses, physicians, respiratory therapists, public health workers, psychologists, basic scientists, ethicists or medical administrators that may make significant contributions to the provision of patient care both in the prevention and the treatment of diseases.

Please consider attending our conference where professionals from various disciplines will present their work, show its importance and engage in lively discussions on improved care practices. Our team looks forward to welcoming you and making your stay a memorable one.

Sincerely yours,

Gerald H Katzman MD, FAAP, CPE

Clinical Associate Professor

Rola El Moubadder

CARE Centre for Inter-nationally Educated
Nurse, Canada

Dear Nursing and Health Care Colleagues,

I extend warmest greetings to you all, as I welcome you to attend the 8th Asia-Pacific Advanced Nursing Practice, Nursing Education and Leadership Conclave taking place on June 17-18, 2027, in the island nation of Singapore, a vital connector in international relations.

Health care is at the centre of the world economy, valued at approximately \$12 trillion in 2025, making it the largest economic sector globally.

As nurses, we know that our profession is the backbone of health care systems worldwide. We are the largest employee group in health care, in Canada comprising nearly half of regulated healthcare professionals at almost half a million nurses. There is a nursing shortage not only in Canada, but also internationally, at a time when financial support for developing countries' health care needs is declining. We experienced one global pandemic that took millions of lives. Experts predict not if another will arise, but when.

The International Council of Nurses (ICN) has emphasized that nurses are not only essential to improving health outcomes but are also powerful contributors to economic growth and resilient societies. Likewise, the World Health Organization (WHO) continues to reinforce that investment in nursing is an investment in stronger health systems, healthier populations, and more prosperous economies. Building, supporting, and retaining a well-prepared nursing workforce should therefore be viewed not simply as a healthcare priority, but as a strategic economic imperative that strengthens communities and nations alike.

It is crucial for nurses and allied health professionals to share their research data, their lived experiences and their forecasts for the future of health care around the world. While North America continues to be the region with the most spending on health care, Asia Pacific is the region experiencing the fastest growth. That's why the 8th Asia-Pacific Conclave is the ideal gathering, to address the biggest challenges, the greatest breakthroughs, and the most focused objectives for collaboration to improve health outcomes for all peoples and nations.

Prominent speakers will present on current issues in nursing, such as technological impacts on health care, evolving health human resource trends, and how the practice of nursing is changing on the ground and at the bedside.

Please join us at this gathering of respected and emerging nursing leaders and allied innovators to help shape the future of global health care.

Sincerely,

Rola El Moubadder RN, BScN, MQM, CNE

Executive Director, CARE Centre for Inter-nationally Educated Nurse, Canada

Tuyuan Cheng

National Tainan Junior College of Nursing, Taiwan

Dear Esteemed Colleagues,

It is my great pleasure to warmly welcome colleagues, researchers, educators, healthcare professionals, and interdisciplinary scholars to join the 8th Asia-Pacific Advanced Nursing Practice, Nursing Education, and Leadership Conclave, to be held on June 17–18, 2027, in Singapore.

Having participated in Nursing Asia-Pacific 2026, I found the conference enriching, inspiring, and professionally meaningful. Although focused in scale and organized in a single-track format, the program provided valuable academic exchange on nursing education, medical–nursing integration, healthcare innovation, and leadership.

From my own interdisciplinary perspective in psycholinguistics, language education, and technology-enhanced learning, I was honored to present my work on virtual reality narratives for cultivating empathy and communication in nursing education. This experience affirmed that Nursing Asia-Pacific is a valuable platform where diverse scholarly voices can be heard, shared, and connected with the global nursing community.

I sincerely appreciate the efforts of the organizing committee, program staff, moderators, and all supporting members whose dedication sustains the academic quality and professional spirit of this conference.

I warmly encourage colleagues and peers to join Nursing Asia-Pacific 2027. I believe it will offer a meaningful opportunity for scholarly exchange, professional networking, and collaborative reflection on the future of nursing and healthcare.

Sincerely yours,

Tuyuan Cheng

Professor, National Tainan Junior College of Nursing, Taiwan

PRESENTATION FORUM

01

KEYNOTE FORUM / MINI-PLenary SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

02

03

STUDENT FORUM / POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

04

05

EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/ CORPORATE WORKSHOPS/MINI- SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

HIGHLIGHTS OF THE DAY SESSIONS

"Highlights of the Day Sessions" is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

06

07

MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

DISCOVERING

A right choice of conference destination is an important aspect of any international conference and keeping that in consideration, **Nursing Asia-Pacific 2027** is scheduled in the Beautiful city "singapore".

SINGAPORE

Singapore, a dynamic city-state nestled in Southeast Asia, beckons travelers with its unique blend of cultural richness, technological advancements, and unparalleled experiences.

Cultural Diversity: In Singapore, cultures converge harmoniously, offering visitors a tantalizing journey through Chinese, Malay, Indian, and Western traditions. Explore vibrant neighborhoods like Chinatown, Little India, and Kampong Glam to immerse yourself in their distinct flavors, colors, and aromas.

Modern Marvels: Marvel at Singapore's architectural wonders, from the iconic Marina Bay Sands complex to the futuristic Gardens by the Bay. Take a ride on the Singapore Flyer for panoramic views of the city skyline or indulge in thrilling attractions on Sentosa Island.

Culinary Delights: Singapore's food scene is legendary, boasting a kaleidoscope of flavors that tantalize the taste buds. Sample authentic dishes at bustling hawker centers, from savory Hainanese chicken rice to rich and fragrant laksa.

Shopping Paradise: Shopaholics rejoice in Singapore's myriad shopping destinations, from luxury boutiques along Orchard Road to eclectic markets like Bugis Street. Whether you seek designer labels or unique souvenirs, Singapore offers something for every shopper.
